

Dear Parents,

We are excited about our summer SwimAmerica program. We think you will find that it is truly a state-of-the-art learn to swim teaching program. It has been developed by a committee of the American Swimming Coaches Association to provide the finest progression program in the world.

We think the program is both “goal-driven” and “technique-oriented.” Swimming skills are divided into 10 learning stations. The children are taught in small groups and move to a higher station as they individually master the goals of their present station.

“Goal-driven” means receiving graduation points to the next station. This helps the swimmer feel personal confidence in their ability to learn. “Technique-oriented” means we are very concerned with teaching proper stroke mechanics from the beginning. Our coaches are certified SwimAmerica coaches, as well as accomplished competitive swimmers who will emphasize correct technique from the first lesson.

You can follow your child’s progression by checking the back of their certificate which outlines the advancement skills at each station. Our Site Supervisor can advance your child at any point in the lesson, when skills are mastered.

Our Program Director is available before and after lessons to discuss or answer any questions you may have concerning your child. We appreciate your interest in our program and hope you will enroll your child in SwimAmerica!!

Sincerely,

Cindy Goddard
