

Coach Gregg Troy

2012 US Olympic Head Coach

Coach Gregg Troy, Head Coach of the University of Florida, will be on deck to observe Santa Clara's senior practice on Monday, October 13th.

Coach Troy

On Monday, October 13th, Coach Gregg Troy will be on deck to observe Santa Clara's senior practices. Coach Troy is entering his 18th season with the University of Florida, and he was the 2012 US Olympic Team Head Coach. In 2012, Coach Troy's swimmers, some of whom include Ryan Lochte, Elizabeth Beisel, and Connor Dwyer, went on to win multiple Olympic medals and lead Team USA to a most successful Olympic Games.

Over the past weekend, two SCSC high school seniors took official visits to the University of Florida as part of their college recruiting experience. Coach Troy is now in Santa Clara doing home visits with these two athletes and their families. While on deck, he will watch our current high school seniors practice, and he will also learn more about the SCSC training program and watch potential recruits for future years. This is a great opportunity for our swimmers!

During the month of October, the SCSC staff will be focusing on college swimming education. We plan to have our high school seniors visit the Performance Prep, Gold, and Blue Bell groups to talk about their experiences with college recruiting. We will also distribute a few articles to help educate families on the recruiting process. We are also working on a brochure of our underclassmen to send to colleges across the country to help promote our athletes. And finally, at the end of the month, many of our age groupers will attend the Stanford-Texas dual meet to see college swimming first hand.

Please share this news with your athletes, and if you see Coach Troy on deck, feel free to give him a "Go Gators" cheer!

- 2012 US Men's Olympic Team Head Coach
- 2010 USA Swimming Coach of the Year
- 2010, 2011 NCAA Coach of the Year
- 75 Number of Olympians Coach Troy has coached.
- 18 Years at the University of Florida

We Dream.
We Train.
We Achieve.
