

Want to Join SCSC MASTERS and Swim today?

How to Proceed – How to Join SCSC Masters Now: Use Join SCSC Tab

First, complete a Pre-registration record within this web site to join the SCSC Masters' Program. (Please ignore volunteer hour and age group "agree" selections but do check each box off, they do not matter for Masters' Swimmers except for (1) your agreement to liability issue).

First Month charges are billed at Pre-registration, but your data record is still in our Pre-Registration Database and you will not have official access to your data until we manage your record. Movement of your Pre-registration record into our Official Roster usually occurs within a few days. However, once you've completed a Pre-Registration record, you can show up to any Masters' Time Slot. Tell the coach on deck you are new and pre-registered.

Your pre-registration record will be moved into our database within 3-5 days after you've entered your data.

Your Dues billing will be the 1st of each month until you advise us by email to cancel your subscription.

We use a monthly schedule, thus, your first month is the month you start within the first 20 days of the month. Those starting on the 21st of a month, their first month would be the following month. Those starting after the 20th of each month will have their pre-registration record moved into the database on 1st of following month.

Pre-registration Billing:

Competitive Team Parent Fee: The Team Parent Fee Rate of \$25.00 is adjusted after billing by refund.

All fees are reviewed and adjusted once we manage your record. Refunds will be issued promptly if required.

If you have not yet joined USMS, you can ask the Masters' coach on Deck for a one month waiver from USMS that covers your insurance liability. After one month, and you wish to continue swimming with SCSC Masters, you must officially join USMS. Go to USMS.org to Join United States Masters Swimming; \$54/year, covers your liability.
