COMMENTS

The first game of the last session between Trinidad and Tobago versus Argentina decided who would be awarded the bronze medal. Argentina started the game slow at both ends allowing three consecutive extra man situations for Trinidad. The opponent was only able to capitalize in one of them. After that the gauchos just turned on the afterburners and started playing strong at both ends. They were able to score consecutive goals most of them from the perimeter. The second quarter was a very slow paced one. Argentina just moved the ball around in the perimeter scoring twice. Trinidad wasn't able to penetrate Argentina's tight defense and couldn't execute any solid offense. Argentina came out strong in the third quarter scoring seven unanswered goals. Trinidad missed two opportunities from inside four meters just to have Argentina counter and score at the other end. The last quarter was a better one for Trinidad. They were able to score twice from the perimeter. Argentina just kept scoring from two meters and from the perimeter. With the win Argentina earns the bronze medal.
