United States continued their dominance over their opponents during the opening game of the fourth day of competition in the Youth Panamerican Championship. From the start until the end, USA showed their power at both ends of the pool. They were able to score in their first five possessions, all of them coming from different types of shots. The key for their success was just the same: strong defense all over the pool. Most of the goals for the US came from turnovers and crafty ball movement. One thing that is characteristic of the American team is that they are very disciplines both in defense and in offense. During the first half, Argentina was only able to score on a penalty shot in the first quarter and a very good perimeter shot in the second. At the half the score was 14-2 in favor of USA. The third quarter was the best for the americans. They up tempo their game and scored nine goals for three for Argentina to increase their lead 23-5. Argentina did manage to attack more effectively and get some exclusions and good shots at goal during the second half. Bacigalupo (#3) and Ruiz (#7) led Argentina with three goals apiece. Their team will go against Trinidad in the last day of the preliminary round. United States was led in scoring by Flynn (#8) with nine goals. They will go against Canada for the top spot in the preliminary round
