

Dear SWAT families,

It is time for our annual coffee fundraising program! As I'm sure you already know, fundraising is very important to our club's financial security. Based upon positive feedback from you and a quality product, we have decided to sell Berres Brothers Coffee again this year. When you sell this coffee you will receive a fundraising credit for every bag, gift set, or single pot you sell.

Talk to all the coffee drinkers that you know and urge them to buy their coffee from you. They can stock up and buy a few months supply or get the convenient samplers for students, home or the office use. The gift sets come in two sizes that will make great Christmas presents for the coffee drinkers on your list. Berres Brothers is a premium coffee at a great price. It is a local family owned company based in Watertown, WI.

Berres Brothers coffees are the perfect choice – not just for every day – but for birthday, holiday and corporate gifts. You can order flavored coffees - like the infamous Highlander Grogg or gourmet coffee roasts. They use only the top 10% of mountain-grown Arabica beans and roast them in small batches to guarantee quality, full flavor and freshness. The ground coffee is suitable for drip or espresso makers.

We do have the option to order the 10oz or 12oz packages in whole bean form. There is no place to indicate this on the form, so you will have to place a **W** next to the orders for whole bean coffee. All of your orders will be for ground coffee unless you indicate otherwise.

I will need your order back to me by November 15th. I would prefer you mail the form to my house, hand it me at practice (AGP or JRP) or email your order to me at tgstigler@sbcglobal.net. As a last resort you can call in the order to me at home. The money will be due at time of pick-up. Please make out one check to SWAT.

The pick-up date and location will be announced the first week of December.

If you have any questions just contact me,

Tom Stigler
