

## **Coaches reports to BOD:**

### Number of kids in water

- 44 Competitive swimmers see attached report.
- 78 Novice swimmers.

### Swimmer behavior issues? ( ones that you need BOD to get involved in as behavior is not changing)

- None of note.

### Progress news of last month with swimmers

- Kings – Still going well. I have been working with Dana on accommodating newer swimmers in the group in a way that will both help the kids just entering and continue to challenge the kids that have participated over the past year. This will be a continuing discussion as we figure out the best progression for these swimmers moving forward and are looking at potential group additions as our numbers increase.
- Dream – Dream is still doing well we are currently working on racing our best at south central area champs, and they seem to be excited about the opportunity.
- Believe – This group continues to be fairly small but motivated to be here and have continued doing well in practice and in understanding of more advanced skills.
- Gold/Senior – This group continues to do well and had success at the Oregon meet. We are still working with the multi-sport athletes in the group to get them engaged and in the sport again and continue their progression.

### Any staff conflicts or news on wanting to add someone to the deck?

- None of note coaching staff seem to have a good handle on the material.

### What do you need from the BOD?

- None of note, just continued open communication between us which I feel has really improved this season.

### What is on the Horizon for the next month? Schedule changes, meets etc.

- We have the South central area champs meet next weekend, a time trial on April 8<sup>th</sup>, JO's on April 22 and shore bird in May. Dana will be leaving on vacation next week and all shifts have been filled that would be impacted by this.
