

College Questions

Parent and Swimmer look at these questions together. You may have already asked some of these questions of the coach. Talk about other questions that are not here that you want the answers to. When you go on a visit find out as much as you can. Don't be afraid to ask questions and write down the answer. It is a good idea to keep a notebook and use the "Requiting Worksheet" to compare. You will be coming into contact with different people, some of these questions can be asked of more than one of them. These are some questions you can ask different people when looking at a school. Some of these will only be answered if you go visit the school. Keep track of what different schools have to say. Remember you will be spending the next four or five years at this institution, it needs to be a place that you feel comfortable.
