

Spring Newsletter-2021

Coach's Message

I wanted to reach out and thank you for a phenomenal first year together. It has been a little over a year since STEEL CITY AQUATICS was founded. Any new endeavor has its bumps and bruises as it grows. We experienced more of these than any of us would have ever imagined. We not only survived, we THRIVED. We rocked it because of our amazing athlete families, who have faith in our program. We crushed it because we have a board, that was able to provide pool space opportunities, as soon as we were able to reconvene. We obliterated it, because we have a staff that is second to none. They care for your athlete not only as an athlete, but as a person. "What's next?" you may ask, as we head into our first long course season together.

You can trust that we will continue to provide opportunities for your athlete that you have grown accustomed to experiencing. We will eventually move outside to the Wave Pool at Settlers Park. This traditionally happens during the second week of June. Different groups will move outside at different times with the oldest groups going first.

Welcome to Long Course Season

Registration is open.
Space is limited.

to swim with us!

Short Course Season Final Meet

Tokyo Aquatics Centre

Olympic Swimming is Only a Few Months Away!

Did you know swimming can be dated back to prehistoric times? We know this based on Stone Age paintings depicting swimmers that have been found. Swimming debuted in the Olympics in 1896. The very first Olympic events were freestyle (crawl) & breaststroke. Times have consistently dropped over the years due to better training techniques and new developments within the sport. Athletes at the Olympics this year, will compete in a state-of-art 10-lane main pool, a sub pool and a diving pool and will have a seating capacity of 15,000 at Games time. Impressive!!

As the pool warms up and the temperatures stay warm, each group will begin to move outside. This Summer, you can expect to participate in meets with other teams, beginning this month. With the space of the outdoors, we will be able to do more things TOGETHER! One of our biggest strengths is each other and we are looking forward to all of the opportunities that are opening up to us. As we continue to grow and move forward if you have any questions, feel free to reach out. We are all in this together as we prove every day. Thanks again for your trust and patience and we look forward to an amazing long course season with you.

- Coach Jeff

Team's Safety Policy

If your athlete is feeling sick in anyway, please keep them home from practice as a courtesy to not only your teammates & staff. Please bring a sandwich baggie or small Tupperware container to keep your mask safe during practice. PLEASE make sure your emergency contact information is updated in your account.
