

COVID-19 public health actions

announcement September 15, 2021

Temporary measures are in place to reduce the impacts of COVID-19 on the health care system.

Alberta has declared a state of public health emergency. COVID-19 cases and hospitalizations continue to rise, largely in unvaccinated Albertans. New measures to protect the health care system, stop the spread, and increase vaccination rates come into effect starting September 16.

CMOH Order 45 - 2021

Starting September 20, discretionary businesses and events must follow one of these 2 options:

1. Implement the Restrictions Exemption Program requiring proof of vaccination or negative test result to continue operating as usual

- must continue to follow indoor mandatory masking requirements,
- can operate without capacity or operating restrictions if they require people aged 12 and over to show one of the following:
 1. **proof of vaccination**
 - partial vaccination (one dose) accepted September 20 to October 25 if received 2 weeks before time of service
 - full vaccination (two doses) required after October 25
 2. **proof of a privately-paid negative PCR or rapid test within 72 hours of service**
 3. **documentation of a medical exemption**

The Restriction Exemption Program does not apply to:

- businesses or entities that need to be accessed for daily living
- employees of businesses participating in the program
- children under 12 / born 2010 or after

Why is the City participating in the Restriction Exemption Program?

The Government of Alberta declared a state of public health emergency on Sept. 15 and introduced a new Restriction Exemption Program that will allow organizations to continue to operate without limiting capacity and cancelling group activities and competition.

In order to continue serving a greater number of residents, **the City of Leduc has decided to participate in the Restriction Exemption Program.**

2. Follow business capacity and operating restrictions

- Recreation facilities
Capacity restricted to 1/3 fire code occupancy.
Attendees must be with household members only
- Sport, fitness, recreation and performance activities
Adult (over 18) sport, fitness, recreation and performance activities
 - Indoor group classes/activities not permitted
 - Indoor competitions are paused
 - Indoor 1-on-1 training and solo activities are allowed with distancing
- Youth (under 18) sport, fitness, recreation and performance activities
 - Indoor group classes, training, and competitions are permitted
 - Spectator attendance is restricted to 1/3 fire code capacity, attendees are limited to a single household

Restrictions Exemption Program Procedures

updated September 28, 2021 with available information

Overview

The Restrictions Exemption Program (REP) permits businesses/entities/organizers to operate without the majority of public health restrictions in CMOH Order 42-2021.

Face masks are required in all indoor public spaces, even those participation in the REP program. Individuals who have COVID-19 symptoms must isolate and not enter the facility.

Please review AB Gov'ts Requirements for the Restrictions Exemption Program document and more detailed information on vaccinations, negative tests and medical exemptions in this document.

Greeting & Screening

1. Welcome the individual to our facility and ask if they are familiar with the changes now in place.

No – please explain that City is participating in Restrictions Exemption Program in order to maintain all activities and capacity levels. Which means everyone accessing our REP facilities will need to provide proof of vaccination/negative COVID test/medical exemption upon entry.

If not willing or able to meet REP requirements ask the individual to leave the facility.

More information on provincial health restrictions & guidance is available here
<https://www.alberta.ca/covid-19-public-health-actions.aspx>

Yes – ask them to provide items described below.

Confirmation at Rec Check Desk for vaccine/negative test/exemption and ID **does not apply to** and are able to use the [Fast Pass Lane](#) for:

- children under 12 years (born TOMORROW'S DATE, 2009 or later)
- participants of youth/minor sport organizations (12-17 years old) and schools accessing privately booked/exclusively used amenities
 - Does not apply to:**
 - organized, privately booked youth sport groups coaches, instructors, trainers, referees officials, who are 18 years or older
 - spectators of these bookings
 - youth participating in shared drop-in opportunities
- participants & coaches of minor user groups bookings and adult user groups bookings that have entered into a CoL Agent – Facility User Group Agreement for the purposes of the REP program

2. At the point of entry, City representatives will:

- A. Individuals 18 yrs + Review valid personal identification (ID)**
confirm ID document matches person's name matches vaccination/negative test/exemption document and age (TODAY'S DATE, 2003 or before)
- B. Individuals 12 – 17 yrs Verbally confirm age**
verbally confirm person's name matches vaccination/negative test/exemption document and age (TOMORROW'S DATE, 2003 – TODAY'S DATE, 2009)

Children under 12 are exempt from verification requirements
TOMORROW'S DATE, 2009 and after

AND

- A. View proof of vaccination;** or
confirm person's name matches ID, vaccine name and valid vaccine date
- | | |
|--------------------|--|
| up to October 25 | at least one dose of two-dose vaccine at least 14 days prior |
| October 25 & later | two doses, with second dose at least 14 days prior |
- B. View proof of negative COVID-19 test;** or
confirm person's name matches ID, **negative** result and valid date (within 72 hours)
- C. View medical exemption letter**
confirm person's name matches ID, says "vaccine exemption" and **NOT** "mask exemption",
physician's name/signature and valid date

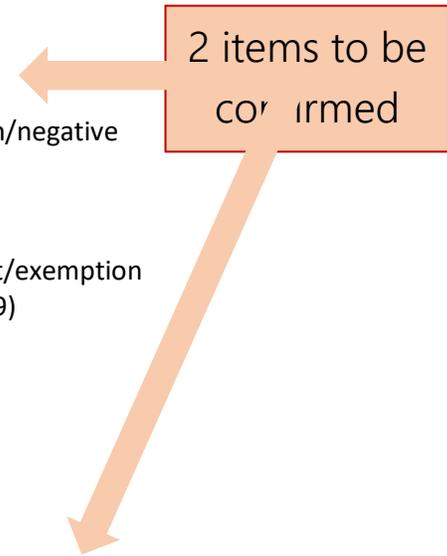

3. Once the individual has met the vaccine/negative test/exemption requirement with matching ID (name) they are then permitted to access public areas of the City's REP facility.
- Spectators and program participants can proceed to program and viewing areas
 - Members/paid daily admission users proceed to Guest Services for check-in/wristbanding

The City will not keep/record personal health information in any way. This information is to be viewed for verification purposes only to gain access to our facilities and is not to be discussed and/or recorded by a City representative at any time.

4. A **Fast Pass Lane** has been established at the main entrances for use by City staff and participants of qualifying user groups that have entered into an agreement with the City to ensure verification requirements are being met or meet the Youth Sport/Rec/Fitness exemption.

Youth ages 12 – 17 that are participating in youth sport bookings (private amenity bookings and not shared drop-in activities) are not required to provide vaccine/negative test/exemption

2 items to be confirmed

documentation and can access the [Fast Pass Lane](#). However, if these same youth want to access other parts of the building (i.e. track for team warm ups) and public drop-in activities that are shared with adults are still required to meet the vaccine/negative test/exemption requirements based on this information provided by the province:

If a youth under 18 is accessing a facility with a REP in place for the sole purpose of taking part in a **youth activity**, they would not need to provide proof of vaccination status, physician note, or negative test.

However, if the facility has a REP in place individuals 12+ must show one of the acceptable options for proof of vaccination if they wished to **spectate, use any other amenity** (such as a restaurant), or participate in a **mixed adult/youth activity** (not including an activity where the adult supports the youth, such as a parents & tots class).

A tool is being developed for visual confirmation, the only people accessing this lane are members of the user groups that have submitted their agreement with the City.

Spectators of these user groups are not included and are to be vetted at the Rec Check Desk.

5. The City is looking into options to record that verification requirements have been met by an individual that regularly accesses the facility. Until then, all individuals accessing the facility will need to be verified daily.
6. In the event that someone wishes to leave and then return to the building they do not need to be verified again. A patron wearing today's LRC wristband can simply show the wristband when using the Fast Pass Lane.

A spectator that has been previously verified can ask at the Rec Check Desk for a hand stamp that can be shown when re-entering the building and access the Fast Pass Lane. The Rec Check Desk attendant should apply the hand stamp to their hand after they have used the hand sanitizer provided.

Refusing access

1. If the individual refuses to provide information or the information provided does not meet the vaccine/negative test/exemption/ID requirements City representative must:
 - communicate what is needed for them to access in the future, offer available information on getting vaccine records, membership/program refunds, etc.
 - ask that they immediately leave the facility and not return until they are able to meet the requirements.

In the event that the individual refuses to leave the City's REP facility or is not adhering to face mask requirements, City staff are to contact Leduc Enforcement Services and/or RCMP to request assistance.

2. While awaiting Enforcement Services/RCMP to attend, City representatives are not to confront nor try to remove the individual from the facility.
3. In the event that the individual's behaviour and conduct, even if meeting verification requirements, becomes inappropriate our Patron Behaviour Management Guidelines and Procedures apply.
4. Complaints unrelated to COVID should be directed through the RCMP complaint line at 780-980-7277.
5. City/LRC staff member should then complete an Incident Report and follow usual reporting procedures.

Refunds, withdrawals and cancellations

1. Should the person not meet access requirements please pass along the following options for cancellation/withdrawal and credit/refund:

- For membership and City program registration requests:
 - call LRC Guest Services at 780-980-7120
 - Email lrc@leduc.ca

- For facility bookings requests:
 - Call Events & Bookings at 780-980-7118
 - Email events_bookings@leduc.ca

Staff are fielding a number of inquiries and so their patience is appreciated as our team will be back in touch as soon as possible.

Valid Personal ID

Photo identification is not required.

Individuals who 18 years of age or older must also present personal ID. Proof of identity can be established using documentation issued by an institution or public body, provided it includes the name of the holder and date of birth.

Individuals 18 yrs + TODAY'S DATE, 2003 or before

Individuals 12 – 17 yrs TOMORROW'S DATE, 2003 – TODAY'S DATE, 2009

Children under 12 are exempt from verification requirements TOMORROW'S DATE, 2009 and after

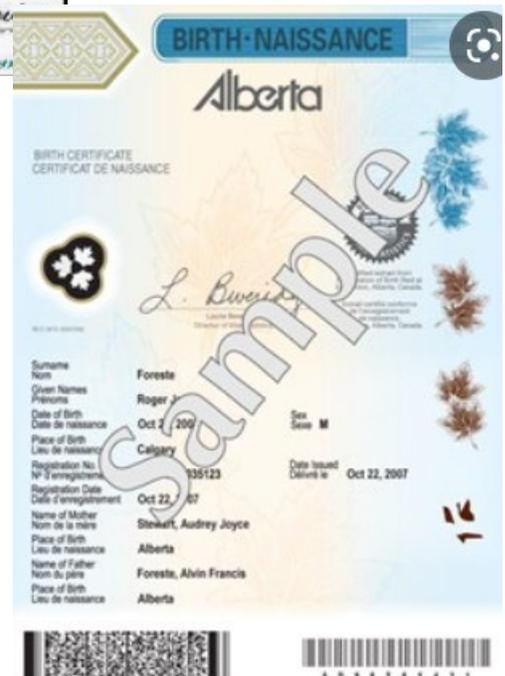

Examples of identification documents that may be used to confirm the identity of the holder of the vaccine receipt include:

- Birth certificate,
 - Citizenship card,
 - Driver's license,
 - Government (Alberta or other) issued identification card, including health card, Metis card, Treaty card, Inuit Status card, or
 - Passport, or
 - Permanent Resident card.
- A "old" LRC membership card that includes photo/name can also be used. Current membership cards do not include photo/name.

Examples

Alberta Driver's Licence.

Vaccine Records

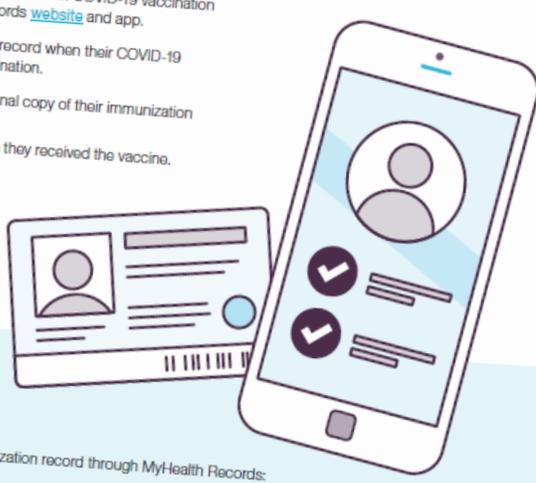

Online (through MyHealth Records)

Albertans 14 and older can view their verified health records, including all vaccines, lab tests and medications, through MyHealth Records, an online tool that lets you access your personal health information.

MyHealth Records will be automatically updated up to 2 to 3 weeks after your dose if you were vaccinated in Alberta. From your account, you can:

1. print a convenient size card (starting September 19)
2. download and use the app to show or take a screenshot of your record

Handouts Available

Getting your COVID-19 immunization record MyHealth Records information sheet

Albertans 14 and older can view, save and print their proof of COVID-19 vaccination on a convenient sized card through MyHealth Records [website](#) and app.

All Albertans should receive a paper immunization record when their COVID-19 vaccination is administered to use as proof of vaccination.

Albertans who need other [options](#) to get an additional copy of their immunization record can:

- Contact the pharmacy or physician's office where they received the vaccine.
- Call 811.
- This includes obtaining proof of vaccination for children under 14 who cannot get their records through MyHealth Records.

Quick tips

Here are some tips to easily get your COVID-19 immunization record through MyHealth Records:

Create a MyHealth Records account

You can instantly sign up for MyHealth Records through these simple steps:

- Get a MyAlberta Digital ID using your Alberta driver's licence or identification card.
- You can immediately create a MyHealth Records account with the Digital ID and access your records right away.
- An activation code will be mailed to the address on your driver's licence or identification card. Use this code within 30 days to complete the verification of your MyAlberta Digital ID to continue getting up-to-date health information.
- You are all set to access your health information including immunizations and test results. You can also download the app.

COVID-19 immunization record

Once you sign into your MyHealth Records account:

- Go to My Personal Records
- Click on Immunizations
- Click the blue Print Immunization button on the Print Reports tool then click on the blue print COVID-19 Immunizations button
- Save the proof of vaccination record on your phone, take a screen shot, or print it.

Plan ahead

MyHealth Records may experience high traffic volume before major events and long weekends.

Save your proof of vaccination record on your phone or print it out ahead of time.

Get your immunization records and test results: www.alberta.ca/MHR

Vaccine Records

Paper Records

You will receive an immunization record at your vaccination appointment.

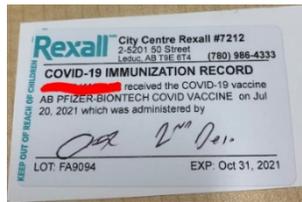

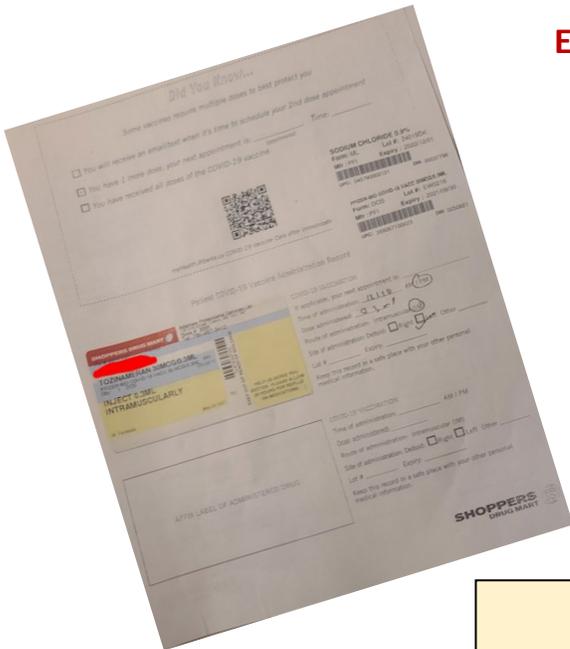

If you lost or require another paper copy, you can print one from MyHealth Records or request a copy through your immunization provider:

1. Pharmacy or physician's office – contact the location you received your vaccination
2. AHS Clinic – call 811 to request a copy of your record mailed to you

Creating your My Health Records Account

1. My Alberta Digital ID (MADI) <https://account.alberta.ca/>
2. My Health Records <https://myhealth.alberta.ca/myhealthrecords>

Care After Immunization

Side Effects

Many people have no side effects from the COVID-19 vaccine. If you do have side effects, they tend to be mild and go away in a few days. Side effects may include:

- redness, swelling, or feeling sore where you had the needle
- feeling tired
- headache
- fever or chills
- body aches or sore joints
- feeling sick to your stomach (nausea), vomiting, or loose stool (diarrhea)
- swollen lymph nodes

Who should get vaccinated

Every Albertan who can get vaccinated, should get vaccinated.

Vaccines make our immune systems stronger by building antibodies to help prevent and fight off diseases. Because COVID-19 is a new virus, no one has previous immunity. It is much safer and more effective to get immunized than it is to get infected.

Get vaccinated

- Albertans born 2009 or before (turning 12+)
- Recovered from COVID-19

Consult doctor first

- If you have questions about the vaccine or your health conditions

Don't get vaccinated

- Children born in 2010 or after
- Severe allergy to [vaccine ingredients](#) [↗](#)

Approved Vaccines (Health Canada)

All COVID-19 vaccines authorized in Canada are proven safe, effective and of high quality.

mRNA vaccines

mRNA vaccines don't use live virus to trigger an immune response. Instead, they teach your cells how to make a protein that will trigger an immune response. Once triggered, your body makes antibodies. These antibodies help you fight the infection if the real virus does enter your body in the future.

Moderna Spikevax COVID-19 vaccine

Name: Moderna Spikevax® COVID-19 vaccine	Approved for: Age 12 and older
Manufacturer: ModernaTX, Inc.	How it's given: Injection in muscle (usually the upper arm)
Type: mRNA	Number of doses: 2 doses
Status: Approved by Health Canada	

Pfizer-BioNTech Comirnaty COVID-19 vaccine

Name: Pfizer-BioNTech Comirnaty® COVID-19 vaccine	Approved for: Age 12 and older
Manufacturer: BioNTech Manufacturing GmbH	How it's given: Injection in muscle (usually the upper arm)
Type: mRNA	Number of doses: 2 doses
Status: Approved by Health Canada	

Viral vector-based vaccines

These types of vaccines use a harmless virus as a delivery system. This vector virus is not the virus that causes COVID-19. Once injected into your body, the adenovirus in the vaccine produces the SARS-CoV-2 spike protein causing your body to mount a strong immune response without exposing you to the virus that causes COVID-19.

AstraZeneca Vaxzevria COVID-19 vaccine

Name: AstraZeneca Vaxzevria® COVID-19 vaccine	Approved for: Age 18 and older
Manufacturer: AstraZeneca Canada Inc and Verity/SII (COVISHIELD)	How it's given: Injection in muscle (usually the upper arm)
Type: Viral vector-based	Number of doses: 2 doses
Status: Approved by Health Canada	

Janssen (Johnson & Johnson) COVID-19 vaccine

Name: Janssen COVID-19 Vaccine	Approved for: Age 18 and older
Manufacturer: Janssen Inc	How it's given: Injection in muscle (usually the upper arm)
Type: Viral vector-based	Number of doses: 1 dose
Status: Approved by Health Canada	

Negative PCR or Rapid Test

To enter spaces participating in the Restrictions Exemption Program, people aged 12 and older can show proof of a negative test result.

- Tests must be privately-paid COVID-19 PCR or rapid tests completed within 72 hours.
- Tests must not be from Alberta Health Services or Alberta Precision Laboratories.
- Self-tests completed offsite is not sufficient evidence to support entry into a facility operating under the REP program.

If the test indicates a **positive result** dated within the last 10 days ask the individual to immediately leave the facility and to adhere to provincial isolation requirements. If they refuse to leave and enter the building, request Enforcement Services assistance and prepare to implement the City's Rapid Response Plan for Symptomatic Individuals.

Date of Birth: [Redacted]
Gender: [Redacted]
Nationality: Canada
Sample Date: 03-Sep-2021 1100 MDT

Result	Source	Results Reported: Date and Time
Negative	Throat	04-Sep-2021 0441 MDT

SARS-CoV-2 (COVID-19) RT-PCR/NAAT Final Clinical Result

Test Information:

SARS-CoV-2 (COVID-19) testing and confirmation were performed on one or more of the following Real Time RT-PCR/NAAT platforms. All COVID-19 NAAT platforms at DynaLIFE have a sensitivity of > 95% and a specificity of > 98%.

Platform	Method	Target	Approval
Roche Cobas z480 and LC 480	Real Time PCR	E, N genes	CAP, CPSA, (LDT protocol)
Hologic Panther	Nucleic Acid Amplification (NAAT)	ORF1ab gene (region 1 and 2)	CAP, CPSA, Health Canada
Sengen	Real Time PCR	R, RDHP, N genes	CAP, CPSA, (LDT protocol)
BD Max	Real Time PCR	RT, N2 genes	CAP, CPSA, Health Canada
GenoXpert	Real Time PCR	E, N genes	CAP, CPSA, Health Canada

Reference Range = Negative

Reporting Comments: A negative result does not preclude the possibility of SARS-CoV-2 infection since the adequacy of sample collection and/or low viral burden may result in the presence of viral nucleic acids below the analytical sensitivity of this test method.

Rapid Testing Locations

<https://www.alberta.ca/assets/documents/covid-19-rapid-testing-third-party-health-service-vendors-businesses.pdf>

Locally we have heard that Shoppers Drug Mart and LA Medical in Leduc offer a-symptomatic testing as does Onyx in Nisku. These can be offered as options, but onus is on individual to research and book.

Medical Exemption

Information is that a medical exemption from **vaccination** is exceedingly rare.

What to look for on Medical Exemption documents

**Must be an original,
copies not accepted**

In the rare event a physician provides a patient with an exemption from COVID-19 vaccination, the physician should clearly state in writing:

- The patient's name that matches ID provided
- Statement that there is a medical reason for which the person is exempt from being fully vaccinated
- Physician name, signature, contact information, professional registration number
- Duration that the exemption is valid

This exemption from vaccination is the not the same as a medical exemption for wearing a mask that is required for all indoor facilities. When reviewing the exemption documentation be sure to **confirm if it applies to masks or vaccination** ... they are not one in the same.

If the document refers to masks the individual is still required to meet the REP vaccination/negative test/medical exemption requirements.

Monitor your symptoms

Adults over 18 should stay home and get tested if they have COVID-19 symptoms.
Children under 18 should refer to the daily screening checklist for instructions.

Core symptoms

If you have any of these core symptoms, you need to isolate for at least 10 days from the start of your symptoms or until they are gone, whichever is longer, or until you test negative.

Adults over 18

- cough
- fever
- shortness of breath
- runny nose
- sore throat
- loss of taste or smell

Children under 18

- cough
- fever
- shortness of breath
- loss of sense of taste or smell

Other symptoms

Adults over 18

Any symptom: Stay home and limit contact with others until symptoms are gone. Testing is recommended.

- Stuffy nose
- Painful swallowing
- Chills
- Headache
- Muscle or joint aches
- Feeling unwell or fatigue
- Nausea, vomiting, diarrhea or unexplained loss of appetite
- Conjunctivitis, also known as pink eye

Children under 18

1 symptom: Stay home for 24 hours, get tested if symptoms don't improve.

2+ symptoms: Get tested and stay home until well or test is negative.

- Sore throat
- Runny or stuffy nose
- Painful swallowing
- Chills
- Headache
- Muscle or joint aches
- Feeling unwell or fatigue
- Nausea, vomiting, diarrhea or unexplained loss of appetite
- Conjunctivitis, also known as pink eye

FAQs

What is a Restriction Exemption Program?

It's a program that the Government of Alberta rolled out on Sept. 20 to prevent the spread of COVID-19. It's to allow businesses and organizations an opportunity to continue providing services without reducing capacity limits. For more information, please visit alberta.ca/COVID19 and click on Public Health Actions.

Why is the City participating in the Restriction Exemption Program?

The Government of Alberta has declared a state of public health emergency on Sept. 15 and introduced a new Restriction Exemption Program that allows businesses and organizations to continue to operate without limiting capacity. Businesses that choose not to participate in the program will need to follow a number of capacity and operating restrictions. In order to continue serving a greater number of residents, the City of Leduc has decided to participate in the Restriction Exemption Program.

Which City buildings are implementing the Restriction Exemption Program and which are not?

Facilities that are participating in the Restriction Exemption Program include: Alexandra Arena, Leduc Recreation Centre (LRC), Maclab Theatre and Operations Building. Facilities that are not participating in the Restriction Exemption Program and will adhere to capacity limits include: Civic Centre, Eco Station, Protective Services (i.e. Enforcement Services, Fire House No. 1 and Fire House No. 2) and Telford Court.

Why are some City buildings implementing the Restriction Exemption Program and some are not?

The City of Leduc will implement a "hybrid" Restriction Exemption Program (REP), effective Sept. 20, 2021. It will be facility-dependent, and will take into account the operational profile of that facility. Our recreation facilities will implement REP to avoid cutting programs due to a capacity restriction. Other City buildings, such as the Leduc Civic Centre, serve as the home to many essential services (i.e., community support services). Requiring the proof of vaccination at these worksites may create barriers to vulnerable populations who visit them regular for daily living. As such, these facilities will operate with capacity limits to continue providing services to our residents.

Specifically, the program is not being implemented at select facilities for these reasons:

- The Leduc Civic Centre provides essential services to the community and is required for daily living; therefore, it is not part of the Restriction Exemption Program.
- The Eco Station provides outdoor services, which is subject to different restrictions from services provided indoors. As a result, the Eco Station will not participate in the Restriction Exemption Program.
- The Protective Services Building, Fire House No. 1 and No. 2 provide essential services to the community and are required for daily living; therefore, these facilities will not participate in the Restriction Exemption Program.

Do we need to wear a mask while inside REP facilities?

Yes, face masks are required in all indoor public spaces, regardless of whether the operator is participating in the REP.
