

Inclement Weather

Remember that you live in or near Barrie, the snow capital of Southern Ontario. Snow happens. Having said that, practices are seldom cancelled; so it is not an easy out for your swimmers!

Parents are responsible for the decision of the safety of travel in inclement weather. If you do not think that it is safe to travel then do not plan to attend a practice. The coaching staff will make every effort to get to the pool for all practices. Many of them live in town and will ensure that someone is there.

The City of Barrie will close the recreation centers if there is a perceived risk to their personnel and the facility cannot be adequately staffed. They announce these closures on the radio. It is impossible for club staff to reach parents and swimmers at work and school when these closures happen so please listen to the radio.
