

Ashley's Angels

invites you to join us for our

8th ANNUAL CHARITY **GOLF** TOURNAMENT

est. 2010

Meet Ashley

Ashley was a very healthy two-year-old when she suddenly became jaundiced (yellow). She was brought to SickKids and, after a number of tests, Ashley was diagnosed with Pediatric Acute Liver Failure, a rare and frequently fatal diagnosis in children. Ashley's condition deteriorated rapidly and she was prioritized on the National Transplant List to receive a new liver. In Canada, wait times for an available deceased organ can be very lengthy, however with Ashley's failing health she did not have time to wait. Fortunately, liver transplantation with a living donor organ is an option in Toronto. Ashley's Aunt Cheryl was determined to a candidate to donate a portion of her liver for Ashley to undergo a life-saving liver transplant – before it was too late. Because of this precious gift of life, Ashley is now thriving eleven-year-old who amazes everyone she meets. Ashley's Angels was established in 2009 following Ashley's liver transplant at SickKids Hospital. Our mission is two-fold:

1. Raise funds in support of transplant research, education and innovation targeted at enhancing both the quantity and quality of live years restored by transplantation; and
2. Raise awareness for organ and tissue donation.

Funds from the golf tournament will go towards:

- Ideal Outcomes Research Program at The Hospital for Sick Children is reviewing 877 pediatric liver transplant recipients in a North American research database to determine if an ideal outcome at 3 years after transplant could be predicted from available patient characteristics, biochemical markers, and clinical events diagnosed at 1 year. This research project is also developing patient profiles to help clinical teams in North America identify and accurately intervene with earliest targeted strategies
- HSOI – High School Outreach Initiative – this is a University of Toronto Transplant Institute (TTI) initiative to increase awareness about the life-saving contributions of organ donation in the province of Ontario to students in the Public and Catholic District School Boards.

On Monday, July 18th, 2018 we invite you to join us for the 8th Annual Charity Golf Tournament in support the Transplant Centre at SickKids Hospital. Guests will include Barrie's business leaders and young professionals coming together to raise awareness for organs and tissue donation and funds for the transplant research, education and innovation. The day will feature VIP treatment with an exclusive golfing experience at The Club Bond Head. This is one of the most sought after golf tournaments in Barrie.

We are looking for local businesses to partner with us as a monetary or in-kind sponsor. For all interested monetary sponsors, please refer to our sponsorship package. All prize and silent auction donations will be displayed with a business card or brochure from your business.

For more information on sponsorships, or to register a foursome, please contact Amy at amy.ward@investorsgroup.com or call 705-719-6773
