

## RETURN TO SWIMMING GUIDELINES STAGE 2 GENERAL GUIDELINES VERSION 4.0 – July 18, 2020

Updated for Stage 2 Commencing on July 27, 2020

### Key Changes:

- Expanded swimmer groups due to additional pool time from the City
- Minor changes to reflect the effects of additional pool time and expanded groups.
- Amendment to the postitive-test protocol
- Updated Appendix references

The Cambridge Aquajets has established a Return to Sport Committee that reports to the Board of Directors and consists of:

Belinda Kemp, Club President  
Ron Campbell, Head Coach  
Dr. Donna Allen (MD, CCFP, FCFP)  
Darren Richer, Club Officials Chair

This guide has been established following Swimming Canada's Return to Sport guide, Swim Ontario's COVID-19 Policies and Procedures and the Life Saving Society's Guide to Re-Opening Pools and Waterfronts. This is Cambridge Aquajet's specific implementation for its members in the City of Cambridge's pools. See Appendix A for a full set of references.

The Cambridge Aquajets will follow a multi-stage return to sport plan. Phase 2 of this plan establishes procedures and expectations for all stakeholders for the resumption of swimming practices for our members. Competitions of any type are specifically excluded from Phase 2 activities and will only be integrated into future stages with further direction from governing sports bodies and provincial/local government and health guidelines.

1. Stage 2 of Return to Swimming will expand the eligible swimmers to include all competitive programs not covered in Stage 1.. The learn to swim Mini-Jets program is NOT eligible to participate.
2. Everything included in this document and supporting guides have been approved by the CAJ Board of Directors, with the understanding that, in the event of a discrepancy between this document and the rules and regulations stipulated by local health authorities and/or City of Cambridge, the latter will supersede anything contained herein
3. Stage 3 Return to Swimming will be the first part of the 2020/2021 swim season. The safety and effectiveness of Stage 2 protocols will be evaluated by the Club's Return to Sport Committee before determining Stage 3.
4. All practices in Stage 2 Return to Swimming will take place at John Dolson and Ed Newland Pools.
5. Swimmers will not be permitted to switch training schedules once selected. The swim group and coach will have set training and facility times that must be adhered to.
6. Per Swim Canada recommendations, coaches will not be required to undergo COVID-19 testing before a Return to Swimming, unless experiencing or displaying COVID-19 symptoms.
7. Masks will be worn in accordance with the swimmer/parent and coach/support staff guidelines.

**RETURN TO SWIMMING GUIDELINES  
STAGE 2 GENERAL GUIDELINES  
VERSION 4.0 – July 18, 2020**

8. To the extent possible, coaches will be assigned to one practice group only.
9. All CAJ Families participating in Stage 2 Return to Swimming will be required to complete the Swimming Canada/Swim Ontario Forms [Acknowledgement & Assumption of Risk](#) and [COVID-19 Attestation and Agreement](#). Participating families will forward copies of the completed forms to the Club Registrar ([cajregistrar@gmail.com](mailto:cajregistrar@gmail.com)) to be kept on file..
10. Participation in Stage 2 Return to Swimming is strictly voluntary. There is no penalty for non-attendance. Practice attendance will be tracked for reference in the event of a positive COVID test. We do ask, however, that the primary coach be notified if a swimmer will not be attending practice.
11. Facility drop-off (entrance) and pick-up (exit) points will be at the City of Cambridge's discretion.
12. The facility will be cleaned as necessary following each practice by the City of Cambridge. Swimmers and Coaches will be responsible for incidental cleaning not covered by the City.
13. There will be NO equipment storage at any facility. What swimmers bring with them to the pool is what they will take home with them and should be thoroughly cleaned after each practice.
14. Any swimmer not strictly adhering to guidelines as published will be removed from the practice, and considered for further disciplinary measures
15. Training pods will consist of 12 or 18 swimmers of similar abilities depending on the facility. These training pods will always swim together. In Stage 2 Return to Swimming, there will be no interaction between training pods. Depending on the determined acceptable "gathering" size, a practice may have up to 18 swimmers (See Parent/Swimmer Guide for facility specific limits), Details on a swimmer's training pod will be communicated in as timely a manner as possible.
16. Only those swimmers registered with CAJ in 2019-2020 season who have been residing in the Cambridge area since March 13 will be permitted to participate in Stage 2 Return to Swimming
17. The practice schedule will be designed to safeguard:
  - a. All Safe Sport regulations, with specific attention to maintaining "Open & Observable" environments at all times
  - b. appropriate physical distancing at ALL times both on the pool deck and in the water
  - c. a minimum of interaction between training pods
  - d. a minimum of interaction between swimmers in the same training pod, i.e., swimmers will have a lane assignment. Any changes to the lane assignment will be communicated by the coach.
  - e. families with multiple swimmers of similar abilities may be assigned a "family" lane within their training pod with higher swimmer density than other lanes in the same practice.
  - f. The training to be undertaken during Stage 2 will be of low intensity with a high focus on technique, and 1 hour in duration. There may be a gradual increase in training frequency and/or duration during Stage 2, at the discretion of the coaches
  - g. ultimately, the number of swimmers allowed in each practice, and each lane within each practice, will be informed by decisions from the appropriate health authorities in

conjunction, the City of Cambridge Aquatics Department, Swim Ontario and Swimming Canada.

18. To ensure the health and safety of our entire membership we ask that everyone (swimmers, parents and other family members) continue to practice responsible physical distancing and observe all health authority guidelines AWAY from the pool (very important).
19. In the event that someone who has returned to swimming registers a positive COVID-19 test:
  - a. they will be required to notify their primary care provider and coach immediately
  - b. The City of Cambridge will be notified that a swimmer tested positive.
  - c. Those swimmers in the same training pod as the infected swimmer must follow the City of Cambridge's and Public Health Guidance on exposure which may include but is not limited to self-monitoring or 14-day quarantine.
  - d. a positive test result from a swimmer may result in the suspension of further Stage 2 practices for everyone in that pod, dependent on direction from health authorities.
  - e. The club will adjust these actions based on feedback from public health for each case should it arise.
  - f. In all cases, any swimmer(s) removed will require clearance from their primary care physician for return to play inclusive of a negative COVID-19 test.
20. The club is required to report on any swimmer who tests positive for COVID-19 or is presumptive positive to its governing bodies and insurance carrier(s) through the Swim Ontario incident report.
21. Swimmers will be required to submit a health survey via Google Forms to identify any illness or activity that would exclude the swimmer from participating in practice.
22. Coaches are required to maintain attendance records for every practice to facilitate contact tracing.
23. For the remainder of the 2019/2020 season any parent volunteer(s) must be registered officials with Swim Ontario.
