

New for Fall 2022

I am excited about the pool time we have negotiated and the programming we are able to offer. You can find descriptions from our main page by clicking on the button titled “Schedules Fall 2022”

Highlights include

- ❑ Our introductory MM program has been expanded and we now have two after-school options (Mon/Wed & Tue/Thu) for our youngest swimmers.
- ❑ We are offering a Junior Masters program for those moving toward the lifeguarding stream, swimmers who have gone as far as they can with in lessons and JD swimmers who are 11 and older and are happy swimming two or three times a week.
- ❑ At our Senior level (15 & over) we now have a Senior-Performance group our fastest swimmers who love to swim and are also participating in other activities.
- ❑ Our High-Performance group will have a lot of training time and can again train regularly with the fastest Queen’s swimmers who seem to have attracted several strong recruits.

As our club evolves, we encourage you to let us know what works for you and what doesn’t. Programming is done for the swimmers and is based on conversations with the swimmers and their families. There is not guarantee we can adjust for a single swimmer and be all things to all swimmers, however, I can guarantee that without feedback it is tough to take your preferences into account.
