

2017-2018
Swimmer Withdrawal Policy

SESSION SWIMMERS:

All fees associated with session swimmers are payable on or before the first practice. If a swimmer withdraws before the start of the 3rd week of practice the Club will issue a full refund of all Club fees, and will waive any fundraising obligation. If a swimmer withdraws after the start of the 3rd but before the start of the 6th week a refund for club fees will be issued for the number of full weeks remaining in the session. However the Swim Ontario and Swimming Canada Association fees are not refundable. At this time the fundraising requirements will also become due. If the dance requirement has not been met the non-fulfillment charge of \$125.00 will become due. After the start of the 6th week no refunds will be issued.

COMPETITIVE SWIMMERS:

All fees associated with registering as a competitive swimmer become due at the time of registration. The Swim Ontario / Swim Canada Association fees are payable prior to the first practice and are not refundable. The balance of the club fees may be paid in installments, not to exceed 7 in total, and are due on or before the 15th of each month starting in September and ending in March. If a swimmer withdraws before the start of their third week the Club will issue a full refund of all Club fees and will waive any fundraising obligation.

For the purpose of calculating refunds, the season will be deemed to be a full 10 month program, starting in September and ending in June, notwithstanding that some months may be considered incomplete due in part, but not exclusively, to missed practices.

If a swimmer withdraws after the start of the third week, the club will refund any fees paid for the remaining full months of the season. The Swim Ontario / Swimming Canada Association fees however are not refundable. If the fees have not yet been paid for the month that the swimmer withdraws these fees immediately become payable. The club will waive the Father's Day Raffle commitment but at this time all other fundraising requirements will also become due and will be prorated for the number of full and part months completed in the season.

NO Refund of Club fees will be issued to swimmers who withdraw after March 31st
