

# SWAS Gators

## SWAS Gators

Dear Parents,

June 13, 2020

We send our best wishes and concern for you and your family at this time. Remaining open to serve our swimmers and provide a healthy outlet for them is very important to us. Governor Ducey has declared that outdoor recreation businesses are essential businesses and provided allowances for us to remain open. We will continue to do so in a manner that supports social distancing and the guidelines set before us by the CDC and our state. At this time we are still at Phase 1 on the reopening status for AZ. We must do our part to continue to move AZ through to Phase 2 and beyond. Encouraging our children to practice appropriate guidelines will help prepare them as they get ready to return to school.

We ask that everyone support the Social Distancing Directives and Safe Guidelines that will help us ensure we keep our group healthy.

1. Please stay home if anyone in your home is sick, or if you or your children have been exposed to someone who is sick.
2. If you have an older person or someone who is in guarded health in your home, or that your children are in close contact with, we do not recommend that you participate in our program.
3. Always Practice Good Hygiene.
  - Wash your hands, especially after touching any frequently used item or surface.
  - Avoid touching your face and eyes.
4. Please have swimmers arrive with their suit and sunscreen already on. Restrooms are available, but please do not plan to use the locker rooms. **Swimmers who are able, should arrive and leave with their masks on. No masks may be worn during practice.**
5. Parents, please drop off & pick up only. Do not stay at the pool. You may park and go for a walk, but please do not gather on the deck or at the fence. At EHAC – please do not gather in the breezeway or the shade on the south end. Swimmers please exit the east gate.
6. Adults accompanying swimmers for medical reasons, dive parents, and parents of very young swimmers may remain at the facility and are expected to wear a mask as well as respect social distancing and use shaded areas away from participants. At 49er's please stay on the upper deck.
7. Talk with your children about social distancing. They are very close friends and often their first impulse is to hug each other. Please have them come up with an alternative, a big wave, air hug, jelly fish hug, Gator wave etc.
8. We will have on hand, sanitizer and wipe commonly used surfaces.
9. Properly maintained and chemically balanced swimming pools are healthy and do not transmit viruses.
10. Fresh air, sunlight and exercise are good for all of us!
