# Participant Setup

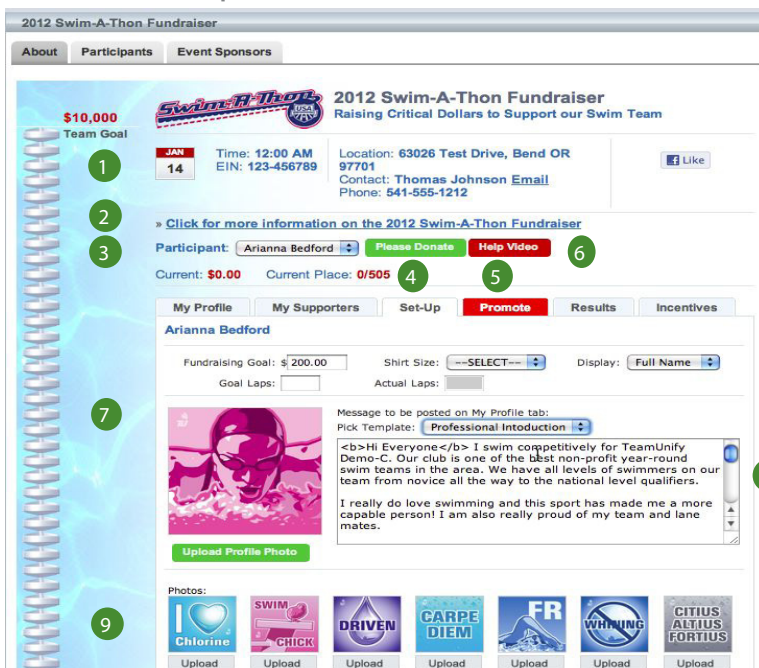

## Tips and Tricks

To access your fundraising setup for allowing donors to sponsor your athlete, simply select the banner on your site.

- 1 Event Fundraising is easy to setup for each individual athlete. You should have received a launch letter from your administrator with a link that will bring you directly into your setup page. If you have not received this simply select your fundraising banner to access your setup.

## Click on Setup Tab

## Tips and Tricks

The best way to get your athlete involved is to have them help you setup their profile. When kid's take ownership of the fundraising it becomes important and exciting to watch their goal being reached. Swim teams rely on this money to be better clubs and help your athlete be an all around stronger athlete.

Use the pictures to represent your athlete and to show the donor what type of person and swimmer they are. Have fun with this portion!

- 1 Fundraiser Information - This area has been setup by your Administrator. It will give you information about the fundraiser including the date, time, tax number if applicable, location, contact, and phone number.
- 2 More Information - This is an expandable feature that is viewable to yourself and any potential donors. Select it for more information on your fundraiser.
- 3 Participant Area - Once you are logged in, all of your children will appear in this dropdown. Select your child to begin the setup of their profile. The public will be able to then select an athlete and the corresponding 'please donate' button to ensure the can donate to the athlete of their choice. Their current donation total and 'dollar' place on the team will be viewable as well.
- 4 Setup Tab - You must select this tab to setup each child. This tab is viewable to logged in parents only to allow for individualized setup for each athlete.
- 5 Promote - Select this tab to help promote the fundraising event. See page 3 for more help.
- 6 Help Video - Select this for a video to guide you through your setup process.

## Participant Setup

- 7 Participant Information - Select your fundraising goal, laps that you would like to complete (if applicable), shirt size, and display name. Actual laps will be added by the administrator.
- 8 Message to be posted on my Profile tab - Select a pre-templated message that you can edit by using the template drop down or simply type into the text box to create your own. This message will appear on the profile page to potential donors.
- 9 Photo Upload - Upload both your swimmer's profile picture and additional pictures to help show off some of your child's achievements, hobbies, strokes, or even just something fun. Your site also comes with some great pre-loaded pictures. Simply select library in your options.

The screenshot shows a web interface for setting up a participant profile. At the top, there are two input fields for social media URLs: 'Facebook URL: http://' (callout 1) and 'Twitter URL: http://' (callout 2). Below these is a 'Current' goal amount of '\$0' (callout 2) and a 'Save' button (callout 5). The main content area is divided into three sections: 'Participants' (callout 3) showing a list of names and amounts, 'Top Roster (amount)' (callout 3) showing a total of \$640.00 for 'Cascade', and 'Top Locations (amount)' (callout 3) showing a total of \$640.00 for 'Torrey Pines'. At the bottom, there is a 'Sponsors' section (callout 4) listing 'TeamUnify' and 'Aamco' with their respective offers and end dates.
