Before sharing any operational updates, I want to start by sending my deepest sympathies for everyone impacted by what appears to be another tragedy in our sport and now in our own local community. There are no words. For anyone who may be struggling to process the news, or who have been affected by abuse, I remind you of the many resources available through the Center for Safe Sport. I know Rebecca is willing to share those resources and you can reach out to her directly if you, or someone you know, is having a hard time.

I have activated our LSC's Crisis Management Plan. On Sunday night the Executive Committee appointed Rebecca as our Spokesperson, and myself as Information Officer. We are working with USA Swimming to determine the best course of action. In the meantime, if you have any questions or comments, please reach out to me directly.

The Search Committee for the Sport Development Director has reviewed a handful of candidates for the position and continues to broaden our network to attract qualified and experienced candidates. We have posted a condensed version of the position which includes a salary floor. Our trip to Jacksonville next week for Convention will be critical as the posting will come down the week following.

Next week a number of us will head to Jacksonville for Convention. I look forward to spending quality time with my peers and for the many learning opportunities that await. A summary of the trip will be provided at the October meeting.

Respectfully submitted,

Luke Day, General Chair
