

National Interscholastic Swimming Coaches Association

MEASUREMENT CERTIFICATION OF PERMANENT RACING COURSE

City and State in which pool is located: Minden, Nevada

Name of Pool Owner or Operator: East Fork Swimming Pool District

Mailing Address: P.O. Box 1972

City, State, Zip: Minden, NV 89423

Pool Name: Carson Valley Swim Center

Pool Address (if different from above) 1600 Hwy 88

City, State, Zip: Minden, NV 89423

National Record Certification Requirements

Rule 1 Measurement must be made by a currently accredited (licensed, certified, or registered) surveyor or engineer who, at the time of the measurement, was not in the employ of the pool builder. The exact length of the course, measured by a steel tape or other acceptable measuring device (e.g., laser) in feet and inches and fractions of an inch, or in meters and centimeters, must be attested to by an accredited surveyor or engineer.

Rule 2 Measurements must be taken for each competitive lane of the pool to be certified.

Rule 3 When automatic officiating equipment touch pads are used at one or both ends, the course shall be of such length that ensures the required distance between the two touch pads or between a single pad and the opposite end of the course. Measurements are to be taken with touchpads in place for the competition configuration during the session where the time was achieved.

Rule 4 The required distance is the nominal distance (25.0 yards/meters) with a positive dimensional tolerance as noted below. Any distance less than the nominal distance or greater than the nominal distance plus the positive dimensional tolerance is not acceptable.

Rule 5 (For racing courses with moveable bulkheads) Where a moveable bulkhead is used, course measurement of each lane (as described above) must be confirmed at the conclusion of the session during which the time was achieved.

NOTE 1: If two or more racing courses are offered in the same pool (i.e., 25/50m x 25y), a separate form for each course must be filed.

NOTE 2: **Dimensional Tolerance:** Against the required length, a tolerance of plus (+) 0.03 meters (1 and 3/16ths of an inch) in a vertical plane extending 0.3 meters (12 inches) above and 0.8 meters (2 feet, 7 and 1/2 inches) below the surface of the water at all points of both end walls.

MEASUREMENTS (ANSWER ALL QUESTIONS)

This is a (25-yard pool, 25-meter pool); is (indoors, _____ outdoors);

The racing configuration is with touch pads at (____ one end; ____ both ends; ____ without touch pads).

	LANE 1	LANE 2	LANE 3	LANE 4	LANE 5	LANE 6	LANE 7	LANE 8
YARDS	<u>25.02</u>	<u>25.02</u>	<u>25.02</u>	<u>25.02</u>	<u>25.02</u>	<u>25.02</u>	_____	_____
METERS	<u>25.02</u>	<u>25.02</u>	<u>25.02</u>	<u>25.02</u>	<u>25.02</u>	<u>25.02</u>	_____	_____

WATER DEPTH (IN FEET)

At starting end 11'; at turning end 46"; at course center _____.

In my opinion, the provisions of NISCA Rules 1 through 5 as outlined on the previous page have been complied with in subject pool, with exceptions as follows:

Measurements were made on Dec. 10, 20 04, at 12:00 AM/PM under normal competitive temperature conditions and to an accuracy of at least .01 feet (1/8 inch or 3.00 mm).

At the time of measurement, I was not in the employ of the pool builder.

The following equipment was used for measurements:

Steel Tape
