About Bat Rays Water Polo Club: We are excited to offer FALL water polo for Middle and Elementary school girls and boys. East Bay Bat Rays WPC was formed in the Summer of 2019 to grow the sport in the Northern East Bay area, and to develop water polo youth players to form Club level beginner and competitive water polo teams in our area. We will be looking to develop beginner level players, and to help further develop our growing 14U age-group into a competition-level Club team, starting this Fall.

We will continue into the Spring / Summer with formation of age-group Club teams that will participate in local tournaments, and strive to qualify teams for the USA Water Polo Junior Olympics competition, held each summer, with Northern California / Stanford hosting the Summer 2022 JO's.
