

## Florida Elite Babysitters

This list was created to provide Florida Elite parents with potential babysitters with familiar faces. The goal of this is to provide parents with contacts if they ever need a babysitter and to create more team unity. As we begin to spend time outside of the pool deck together, our team will become stronger and more family like. These future babysitters are a part of the competition swim team meaning they are dedicated athletes. Each student on here wants to be a part of this program and submitted their own information. They are all excited to meet new kids and be there to help you out!
