“The Mission of TekMasters Swim Club (TMSC) is to develop successful athletes of good character and a strong sense of personal responsibility and accountability. In addition to focusing on proper stroke technique, training and developing team unity, TMSC encourages social service, both individually and in collaboration with others. Our ultimate goal is to produce accomplished swimmers, who are conscientious members of society with the physical and social skills to compete successfully in and out of the pool.”

Our mission statement defines our vision. The success of our program is measured in performance-based results. Our recent graduating class of student-athletes has been accepted to or are enrolled at schools such as LSU, Air Force Academy, Carson-Newman, Merchant Marine Academy, UNLV and Wheaton. Student athletes in our current class are considering Loyola, Georgetown, Notre Dame and Catholic University. All members of our team are volunteering with the Salvation Army and the Brick City Beer Fest. Also, team members are volunteering with Interfaith, Literacy Council and Kimberly's Center.

Like any start-up non-profit we have operational and logistical needs. Presently we are raising funds for Tarps and Reels, to offset heat cost for training in the winter months ahead. The cost of the Tarps and Reel for the pool is \$18,000.00. With your help or patronage, we can continue to provide our community and program with the necessary funds to continue the work and legacy of our program. The Breakers are both an AAU and USA sanctioned program with over 100 years of coaching and or swimming experience certified by both organizations.

We are asking for your support to help us grow and continue provide our student-athletes the opportunity to excel in the water and as citizens in our community. You may donate by mail to the above address or online via our website, TMSC352.com. Please remember we are holding our kick-off fundraiser August 14th, Tarp and Reel for Laps at the Jervey Gantt Aquatic Center, Ocala, Florida. Make your presence felt. Attend. Donate. Or, do both!

For more information about the TMSC Breakers vision and program contact Tarn Thompson (352) 817-1470

Thank you for your consideration,
Coaching Staff
