

SPECTATOR POLICY

- At this time we are expecting to allow a very limited number of spectators into the venue.
- **Spectators will be allowed to enter to watch their swimmer's race only.** The spectator area will open 10 minutes prior to the start of each session. Spectators are expected to enter the facility 1-2 heats prior to their swimmer's race, and to promptly exit the facility as soon as the race is completed.
- Masks are not required inside the facility.
- If spectators comply with rotating between heats there is plenty of room in the stands. If the stands are full, it is because spectators are not rotating.
- Spectators are not allowed to sit in seating areas behind the stands, nor are they allowed to bring chairs, cushions, towels, blankets, etc into the facility. Umbrellas may not restrict the view of other spectators. There is no congregating inside the facility.
- There is no food or drink allowed into the facility.
- Pets are not allowed inside the facility.
- Spectators wishing to speak with their swimmer should plan to do so through the fence under the scoreboard. Spectators may not interact with swimmers in front of or next to the spectator stands as this causes congestion.
- The marshals are parent-volunteers who are there to make sure everyone complies with the published guidelines. Please treat them with courtesy.
- Tents and chairs are acceptable outside the fence, and spectators are encouraged to set up in the field to the back of the scoreboard and behind the facility.
- It is strongly encouraged that parents set up outside the fence to be able to view the scoreboard and stream the meet on their phones, and then time it to enter the facility just prior to their swimmer's race. If everyone complies, there will be plenty of room in the stands and everyone will get to watch their swimmers.
- Those unable to comply with the published protocols for any reason should plan to watch the event from outside the venue. Those determined to be non-compliant will be asked to leave the facility immediately and without warning, and will not be allowed to return.
- If there are multiple instances of non-compliance the spectator seating will be immediately closed for that session.
