Mike and his wife Marcia, have two great college aged girls, who he considers to be his greatest accomplishment. In addition to his family, Mike also enjoys reading and fishing and his ideal vacation includes Alaska or scuba diving. Mike is a project controller in the oil and gas business, but still dreams of being an astrophysicist. For those who know and practice with Mike, he'd like to take this opportunity to set the record straight: he does not pull on the lane rope, only Caroline does. (Of course that statement may only be true in the one place in the multiverse where Mike is actually an astrophysicist.)
