

Iowa Swimming, Inc.
2021 Age Group Short Course Championships
Additional Entry Information

Initial Entry Files

Files due on Thursdays (Feb 4 and 11) are to be used to generate current standings in each event. Since they are coming from teams, they should include: a) swimmers who intend to compete if they qualify and b) swimmers who are currently registered.

Entry Fees

No fees will be incurred from the initial entry files. Fees will be calculated from the final entry file, due Sunday, February 14, and ONLY for those swimmers that qualify for an event. So, if you enter a swimmer for 9 events in the final entry file, but he/she only makes it in 6, charges will only be for those 6 events.

Process for the weekends of Feb 6th and 13th

- 1) Teams send in entry files by Thursday (Feb 4th and 11th) with the swimmers they know will compete if they qualify AND who are registered in the 9 events they would choose at that time.
- 2) Late that Thursday, or the following Friday morning, we will complete a registration and times recon and work to reconcile any issues.
- 3) Entry lists for each event will be generated and posted by Friday afternoon. Everyone will then see where swimmers rank in each event. This way, changes can be made for that weekend's meets for your swimmer's events.
- 4) Final entry files are due by 9pm Sunday evening on February 14th. A final recon will be performed Monday morning, and the final event qualifiers will be posted Monday afternoon or evening.

For unattached swimmers you can do this process with a hand form and email to me. Be sure to include the swimmer's USA Swimming ID number, their full name, and up to 9 events, with their times, you would like to enter. I will point out again that these times need to be in SWIMS or they can't be use to qualify for the meet.

If you have further questions, please let me know.

Sincerely,
-Eliot Winer
