² See "Dues Offset Explained" for how this works.

³ Meet fees outside IES may vary

⁴ Assessed for every hour short of the minimum volunteer hour requirement

2021-22 Membership Cost Structure

Fees

Tryout Fee. This occurs in September, December, and sometimes April

USA Swimming Registration Fee. Channel Cats are part of USA Swimming, who requires all its members to register.

Channel Cat Administration Fee. This helps cover the operational costs of running the club.

Summer Pool Use Fee. This is paid to the City of Pasco for use of their 50 Meter outdoor pool.

Dues Offset. There is a \$200 per swimmer charge that would normally be dues, but through various fundraisers, this amount can be reduced, eliminated or even reversed. See Standing Rule 14E for details.

Dues

Training Dues. Channel Cats offers **Year-round** and **summer-only** options, with rates varying based on the swimmer's group. Coaches assign groups and when a swimmer moves up, new fees will apply. The Summer-only option has built-in pool fees.

Monthly Health Club Dues. The Channel Cats use the Pacific Clinic (PC) and the Columbia Basin Racquet Club (CBRC). All Channel Cat swimmers must be a member of the health club in which they swim.

Other Charges

Swim Meets. Each Inland Empire meet has a surcharge whether TCCC sends a coach or not. If TCCC sends a coach, there is an additional TCCC surcharge. In addition, each event has its associated fee. These charges are billed the month following a given meet.

Swim Caps. There are two kinds of caps, each with a cost associated with the quality of the cap. Coaches distribute caps to swimmers as needed and charges are reflected on the following month's bill.

Hospitality. When the Channel Cats host a swim meet, the hospitality budget is partially funded by contributions from the members. Contributions vary depending on the meet and are outlined in the Cost Structure document.

Penalties

Discontinued Membership. By joining TCCC, a swimmer commits to participating from Sep. 1 through Aug 31. This penalty is assessed when that obligation is not met. First year swimmers are not subject to this penalty.

Monthly Late Charge. This penalty is assessed whenever a bill is not paid by the 20th of the billing month.

Volunteer Hour Shortage. All TCCC members, including first year swimmers, are obligated to volunteer 26 hours of service to the team. Any shortage of hours is charged at the rate shown above.

Discounts

Multiple Swimmer Discount. For members who have multiple swimmers, discounts are available for the year-round option only. The multiple swimmer discount is applied first, and then the paid in-full discount.

Paid-up-front. In the training dues, note that if you choose year-round and paid in full, a 10% discount is applied.
