### SAFE SPORT

The USA Swimming Safe Sport program is USA Swimming's comprehensive abuse prevention program dedicated to creating a healthy and positive environment free from abuse for all its members. Components of the program include, but are not limited to, providing education and training, enforcing policies (such as the Minor Athlete Abuse Prevention Policy), rules and best practice guidelines, promoting healthy boundaries and mandatory reporting of violations.

The Minor Athlete Abuse Prevention Policy prohibits Adult Participants (as defined) from having one-on-one interactions with minor athletes which are not within an observable and interruptible distance from another adult. Adult Participants are required to abide by this policy in full during this meet.

Pursuant to USA Swimming Rules and Regulations and federal law, it is every member's responsibility to immediately (i.e., within 24 hours) report any incident of child abuse, including physical or sexual abuse, to law enforcement and the U.S. Center for SafeSport. Reporting must occur when an individual has firsthand knowledge of misconduct or where specific and credible information has been received from a victim or knowledgeable third party. A report to the U.S. Center for SafeSport may be made via telephone at 833-5US-

## **SWIMS DATABASE**

Times from the following will be in SWIMS, the national times database. Times in the database are not automatic entries to meets.

- A. USA Swimming Sanctioned competition
- B. USA Swimming Approved competition - Check two weeks before the competition to assure the meet has been approved by the LSC, and prior to the start of the competition, ask the Meet Director for the procedure for getting a time into SWIMS.
- C. USA Swimming Observed swims - Be sure a proper request for an Observed Swim is made according to guidelines appearing in the USA Swimming SWIMS Time Module Policy Manual, and prior to the start of the meet, verify that proper procedures are in place for the Observed swim.
- D. The time of any swimmer recorded while legally representing a USA Swimming club, secondary school, college, or university within the appropriate time frame, may be used in proving relay entry times. That

swimmer does need to be entered in the championship in question or currently representing that club. Relay times belong to the team. Individual times belong to the swimmer.

Times submitted to the USA Swimming SWIMS database no later than 20 days prior to the Championships will be in the database. If a time for a swimmer is visible in the public search feature on the USA Swimming website (Times/Time Standards) and it was swum in the appropriate qualifying period, it is considered a proven official time. Entry times not proven by the scratch deadline for the event will be considered as false or incorrect times and are subject to action under provisions of the USA Swimming Rules and Regulations.

SWIMS data entry from meets in which time standards were met must be requested from the SWIMS Time Official in the LSC in which the meet was held. LSC officials may charge a fee for data entry requested after the meet ends. These times will not be automatically placed in the database. Times from all major international championships will be automatically entered in the database. Relay lead offs and/or intermediate split times must be requested from the SWIMS Time official in the LSC where the time was achieved. Requesting SWIMS data entry won't enter a swimmer into a competition nor place a club on the USA Swimming mailing list.

**RESPONSIBILITY  
CLAUSE**

The coach, swimmer or swimmer representative who enters a USA Swimming Championship thereby attests that all times stated are true and correct as achieved qualifying times for each event entered. He/she assumes all responsibility for false or incorrect times, or times which are unacceptable under USA Swimming rules, and shall be assessed a \$100 penalty payable to USA Swimming for each such time entered, unless absolved of the fine by USA Swimming or Board of Review. Additional action or penalty may be taken or levied as deemed appropriate by USA Swimming. Such penalty shall also be levied against any USA Swimming verification officer who knowingly entered such a false time(s) into the SWIMS Database. Appeal of fines must be made to the Meet Referee or designee and/or Board of Review. Any appeal of the decision of USA Swimming shall be in accordance with the provisions of Part Four of the USA Swimming Rulebook.

## **OH CONCUSSION LAW**

Ohio has modified its existing school concussion law to apply the requirements to youth sports organizations in which athletes participate, including swimming. These requirements apply to out of state coaches whose swimmers are attending the 2022 Futures Championships.

1. The law requires that a youth athletic program must immediately remove an athlete from an athletic activity for the remainder of the day, if the athlete is suspected of sustaining a concussion or head injury and prohibit the athlete from returning to the activity until the athlete is evaluated by a licensed health care provider, trained in the management of concussions, and acting within the scope of his or her practice. The athlete must receive written clearance from the licensed health care provider to return to the athletic activity. If the athlete is diagnosed with a concussion, they must go through a graduated return to play protocol of no less than seven days under the supervision of a licensed health care provider. Youth sports organizations must also notify the parents or guardians of athletes 17 or younger who have been removed from athletic activities due to suspected concussions.

2. Coaches and administrators must successfully complete the concussion and head injury education required under the bill at least once either online or in person. The following courses from the Center for Disease Control and Prevention (CDC) or the National Federation of State High School Associations (NFHS) satisfy the requirements.

[\*CDC Concussion Course\*](#)

[\*NFHS Concussion Course\*](#)

3. USA Swimming has also developed concussion and head injury education materials for coaches and administrators. Below is a concussion at the pool checklist for coaches, officials, and parents.

[\*Concussion at the pool Checklist\*](#)

After entering the meet, you will receive the standard USA Swimming Participant Waiver, a Concussion Information Sheet for Parents and Swimmers, and the Concussion Acknowledgment Document. Please be sure to take the time to read this information to avoid any delays or issues at the meet. Both the waiver and the acknowledgment document will need to be signed and submitted for each athlete at registration.

## **CA CONCUSSION LAW**

California has modified its existing school concussion law to apply the requirements to youth sports organizations in which athletes participate, including swimming. These requirements apply to out of state coaches whose swimmers are attending the 2022 Futures Championships.

1. The law requires that a youth athletic program must immediately remove an athlete from an athletic activity for the remainder of the day, if the athlete is suspected of sustaining a concussion or head injury and prohibit the athlete from returning to the activity until the athlete is evaluated by a licensed health care provider, trained in the management of concussions, and acting within the scope of his or her practice. The athlete must receive written clearance from the licensed health care provider to return to the athletic activity. If the athlete is diagnosed with a concussion, they must go through a graduated return to play protocol of no less than seven days under the supervision of a licensed health care provider. Youth sports organizations must also notify the parents or guardians of athletes 17 or younger who have been removed from athletic activities due to suspected concussions.

2. Coaches and administrators must successfully complete the concussion and head injury education required under the bill at least once either online or in person. The following courses from the Center for Disease Control and Prevention (CDC) or the National Federation of State High School Associations (NFHS) satisfy the requirements.

[\*CDC Concussion Course\*](#)

[\*NFHS Concussion Course\*](#)

3. USA Swimming has also developed concussion and head injury education materials for coaches and administrators. Below is a concussion at the pool checklist for coaches, officials, and parents.

[\*Concussion at the pool Checklist\*](#)

After entering the meet, you will receive the standard USA Swimming Participant Waiver, a Concussion Information Sheet for Parents and Swimmers, and the Concussion Acknowledgment Document. Please be sure to take the time to read this information to avoid any delays or issues at the meet. Both the waiver and the acknowledgment document will need to be signed and submitted for each athlete at registration.
