

NU WAVE SWIM CLUB

COVID19 Procedures at UNO Lakefront Arena Aquatic Center

Effective Monday, July 13, 2020

Entering/Exiting The Facility

- **Coaches and swimmers only are allowed inside the facility.**
- **Swimmers must wear a mask, or appropriate face covering, when inside the facility.**
 - **Holding a t-shirt, equipment bag, or any other make-shift covering will not be accepted and the swimmer will not be admitted.**
 - **SELA has made masks available at the lifeguard desk. But, this should not be the planned procedure. This is for emergency needs.**
 - **Each swimmer should have a dedicated mask, or face covering, for swim practice that can be kept on or in their swim bag.**
 - **Coach Sarah has sent an order for Nu Wave logo masks. Check your email for that option.**
- **Temperature checks will continue to take place behind the bleachers near the lifeguard desk.**
- **Once cleared, swimmers are asked to proceed to their assigned bag drop area and continue to wear their mask until time to move to their assigned lanes.**
- **Upon the conclusion of practice, swimmers must put on their mask before packing their bag to exit.**

Inside The Facility

- **Facility restrooms are to be used in emergency only situations.**
 - **Swimmers must arrive in their swimsuit and leave in their swimsuit each day.**
 - **Make arrangements to handle bathroom needs prior to arrival.**
- **If a swimmer must exit the pool during their practice to go to the restroom, outside for some air, to the water fountain, or to stretch, they are asked to retrieve their mask from their bag before proceeding.**
- **Swimmers who move around the pool deck for any above stated reason (or other reason not mentioned) must get a sanitizing wipe from the temperature check in area to wipe down all surfaces that the swimmer has come in contact with.**
- **Coaches will wear masks, or face coverings, when near any swimmer, SELA staff, or Nu Wave staff.**
