RE: Short Course Championships Meet File

Attached to this message is an updated event file intended to clarify some misunderstanding about entries into the 50 Fly, 50 Breast, 50 Back, and 100 IM.

The original event file correctly lists events 3 & 4 as 50 Fly, 13 & 14 as 50 Breast, 15 & 16 as 50 Back, and 29 & 30 as 100 IM and correctly lists the qualification time as the corresponding 100/200 time for the same event. This has created confusion as systems such as Team Unify and Team Manager fail to correctly limit entries to the 50's (100 IM) to only swimmers who have achieved qualification times in the corresponding 100 (200 IM) event.

Our solution now lists events 3, 4, 13, 14, 15 & 16 as 100 yard events, and events 29 & 30 as 200 IM which limits entry to only those swimmers who qualify. However, **Events 3, 4, 13, 14, 15 & 16 are still actually 50 yard events, and events 29 & 30 are actually the 100 IM.**

From an administrative perspective, changing the event file not only clarifies confusion on who is qualified to enter, but will simplify our verification of qualifying times and seeding (the 50's - other than the 50 Free - and 100 IM will be seeded based on 100 stroke and 200 IM times).

Please update your system to the new event file and submit your entries using this format. We will change events 3, 4, 13, 14, 15, 16, 29, and 30 to the proper distance after all entries have been received.

Thank you
