3-16-2021 Tech Planning minutes

Murray, Taveras, Lim, Caldwell, Hamborg, Hamborg, Will Foggin, Sydney Pepper,

To notify teams that prior to the April tech planning, they need to submit for bids because we want to set the calendar.

Exceptions - situations outside their control, we can still be flexible.

Set the calendar - anything outside of the 45 day window we'll try to be flexible, but teams must prove there's a situation outside of their control.

Motion: Give teams until April 10 to clarify their position on hosting meets this summer and are comfortable putting dates on the calendar. Those teams will be expected to operate in the 45 day window for sanctioning. Additional meets will be able to be added but solely based on COVID challenges outside of their control. We are trying to eliminate last minute meets and time trials. Motion seconded and passed.

Motion (Murray)- Tech Planning asks the board to review the subject of spectators at swim meets. Motion seconded and passed.

Motion to adjourn

Adjourned at 9:15pm
