## MARLINS NON-WET RESOURCES

In line with the mission of the YMCA, the Marlins are a program that helps to build healthy spirit, mind, and body for all our swimmers. During the 2020 Coronavirus Quarantine we have an opportunity to focus a little more on the development of our swimmers' minds. Thankfully our team is built from families with experienced at-home and in class educators. Here is a list of online resources we've built together. These resources are all free and is here for you as needed. Our hope is this list will grow as families find and share what they find. **GO MARLINS!**

### Interesting in Coding?

Code.org® is a nonprofit dedicated to expanding access to computer science in schools and increasing participation by women and underrepresented youth. Our vision is that **every student in every school has the opportunity to learn computer science**, just like biology, chemistry or algebra. The Marlins have created free self-paced courses for our swimmers to use in their free time to learn more about coding.

Parents, email [coachmike@cyedc.org](mailto:coachmike@cyedc.org) for usernames and passwords
