Meet Mobile

Meet Mobile is a very useful tool to follow the results of swim meets from the stands or from remote locations during competitions. It provides information ranging from heat sheets to final results in terms of time, place, and improvement for swimmers. It has become the industry standard in terms of near real-time results, and is available on all mobile platforms both as a free app or for a very reasonable subscription fee annually (less than $10). Most parents find this to be the most useful app available for swim meets, and everyone from coaches on deck to parents or grandparents at home enjoy the usefulness and timeliness of this app.
