

## **CALVERT AQUATICS CLUB(CAC) LOCKER ROOM MONITORING POLICY**

### **PURPOSE**

The following guidelines are designed to maintain personal privacy as well as to reduce the risk of misconduct in locker rooms and changing areas.

### **FACILITIES**

The following is a description of our practice and competition facilities to allow athletes and their families to plan their use:

We practice at: Edward T. Hall Aquatic Center, Prince Frederick MD

This location has a locker room and changing area that is shared with the general public. As such, there are likely to be people who are not associated with CAC in the changing area around the time of practice.

### **MONITORING**

#### **General Policy Considerations**

Coaches and staff make every effort to recognize when an athlete goes to the locker room or changing area during practice and competition and, if they do not return in a timely fashion, we will check on the athlete's whereabouts.

We discourage parents from entering locker rooms and changing areas unless it is truly necessary. In those instances, it should only be a same-sex parent. If this is necessary, parents should let the coach or administrator know about this in advance.

If an athlete needs assistance with his or her uniform or gear (for example, a child under the age of eight), or an athlete's disability warrants assistance, then we ask that parents let the coach or an administrator know beforehand that he or she will be helping the athlete.

There are also Family Bathrooms and changing rooms just outside each of the locker rooms that can be used to assist your athlete if needed.

CAC has staggered practices, with different groups arriving and departing throughout the afternoon, evening, and Saturday mornings. It is therefore not practical to constantly monitor locker rooms and changing areas over this extended course of time. While we do not post monitors inside or at the doors of the locker rooms and changing areas, we do make occasional sweeps of these areas. County Staff, CAC personnel with appropriate credentials do conduct these sweeps, with women checking on female locker rooms, and men checking on male locker rooms.

### **USE OF CELL PHONES AND OTHER MOBILE RECORDING DEVICES**

Cell phones and other mobile devices with recording capabilities, including voice recording, still cameras and video cameras increase the risk for different forms of misconduct in locker rooms and changing areas. The USA Swimming Athlete Protection Policies prohibit the use of such devices in the locker room or other changing area:

**305.3** *Use of audio or visual recording devices, including a cell phone camera, is not allowed in changing areas, rest rooms or locker rooms.*
