

2022 Heat USA Winter season timeline and information

Hello Heat USA swimming families!

Our hope is to help provide a view into the remainder of the USA swimming season, for some of you, USA Swimming is new, for others, you may be experienced. This will be the first time our season will be set up this way as Michigan Swimming has significantly altered the end of the year schedule. **There is no more Junior Olympic or District meet.**

1. Meet at EK(grand rapids aquatics) on February 5-6, this will be the last time to qualify in longer stroke and multiple events before the championship meet season. This is the last chance for all 15 and over swimmers to qualify as well.
2. If your swimmer does not qualify in 1 individual event for the A meet, they would then head to the B meet at West Ottawa. If this is the case, the USA season would be done at the B meet.
3. WMSL A Championship meet at Hudsonville Friday, February 11th (11-14 year olds) and A meet at Zeeland(all 10 and unders)

WMSL "A" Championship Time standards

4. For Swimmers with a qualification time for the WMSL A meet, it does appear that if you qualify for the A meet, that you would then move to the Regional championship meet. The Dates would be March 5-6, locations have not been determined, but will remain local. For many of you this will be the end of the season, for those with State qualifying times, you would then continue on, if not, this is where the season would end.

2021-2022 Michigan Regional Championship Qualifying Times March 5-6, 2022

5. State Championships are on separate weekends, but again would be local, the first is for the OPEN division, anybody with a qualification time can attend, this meet would be March 18-20 at the Holland Aquatic Center and finally the Michigan Age Group championship meet March 25-27 also at the Holland Aquatic Center.
