**Safe Sport:**

The Safe Sport program is USA Swimming's comprehensive abuse prevention program dedicated to reducing the risk of sexual, emotional and physical abuse to athletes. Components of the program include, but are not limited to, providing education and training, enforcing policies, rules and best practice guidelines, promoting healthy boundaries and mandated reporting of violations.

The Minor Athlete Abuse Prevention Policy ("MAAPP") prohibits applicable adults from having one-on-one interaction with minor athletes that is not within an observable and interruptible distance from another adult. All applicable adults participating in or associated with this meet, acknowledge that they are subject to the provisions of the USA Swimming MAAPP, and that they understand that compliance with the MAAPP Policy is a condition of participation in the conduct of this competition.

Pursuant to USA Swimming Rules and Regulations and federal law, it is every member's responsibility to immediately (i.e., within 24 hours) report any incident of child abuse, including physical or sexual abuse, to law enforcement and the U.S. Center for SafeSport. Reporting must occur when an individual has firsthand knowledge of misconduct or where specific and credible information has been received from a victim or knowledgeable third party. A report to the U.S. Center for SafeSport may be made via telephone at 720-531-0340 or online at [uscenterforsafesport.org/report-a-concern](http://uscenterforsafesport.org/report-a-concern). Various state laws may also require reporting to law enforcement or to a designated child protection agency.

All athletes age 18 and older must complete Athlete Protection Training (“APT”) to be a USA Swimming registered member in good standing. Any athlete who turns 18 on or before October 14, 2020, who has not completed APT by the first day of competition, will be prohibited from participating in the competition until such time as all membership requirements are completed. Times achieved by an athlete who turns age 18 on or before October 14, 2020, who competes in this USA Swimming sanctioned event without completing this membership requirement, will NOT count for qualification or recognition. This includes participation as a member of a relay.

The requirement to complete Athlete Protection Training is an annual requirement. USA Swimming membership will be affected if a non-athlete member or adult athlete member does not renew Athlete Protection Training annually.

Each club is responsible for the conduct of its swimmers. Any person who, in the opinion of the Meet Director or Meet Marshal, is harmful to others or to other’s property may be required to leave the competition. However, if a swimmer arrives without a coach, he/she must find a willing coach at the facility to sign supervision form before a credential can be issued.

Any swimmer entered in the meet must be certified by a USA Swimming member-coach as being proficient in performing a racing start. It is the responsibility of the swimmer or the swimmer’s legal guardian to ensure compliance with this requirement.

Listing this club has nothing to do with representation, team scoring or credentials.
- Rules:** USA Swimming Rules and Regulations will govern the conduct of this competition. It shall be the swimmers’ and coaches’ responsibility to acquaint themselves with all information contained in this meet information book. No swimmer will be permitted to compete unless he/she is a member as provided in Article 302. This event and associated time trials are held under the sanction of USA Swimming through the Local Swimming Committee (LSC). It is understood and agreed that USA Swimming and the LSC shall be free from any liabilities or claims for damages arising by reason of injuries to anyone during the conduct of the event.

Information regarding the APT course and the background check can be found online at [usaswimming.org/protect](http://usaswimming.org/protect). Coaches must provide proof of CPR, First Aid and Safety Training for Swimming Coaches or USA Swimming approved equivalents and must have successfully passed the required background check and APT Course.
- SWIMS Database and Proof of Time:** Times from the following will be in SWIMS, the national times database. Times in the database are not automatic entries to meets.
- A. USA Swimming Sanctioned Competitions
  - B. USA Swimming Approved Competitions - Check two weeks before the competition to assure the meet has been approved by the LSC, and prior to the start of the competition, ask the Meet Director for the procedure for getting a time into SWIMS.
  - C. USA Swimming Observed Swims - Be sure a proper request for an Observed Swim is made according to guidelines appearing in the USA Swimming SWIMS Time Module Policy Manual, and prior to the start of the meet, verify that proper procedures are in place for the Observed swim.
- Entering Official Times:** All entry times must be made prior to the entry deadline and must be proven. No swimmer will be permitted to swim without said proof. USA Swimming reserves the right to challenge any submitted time.

**Responsibility Clause:** The coach, swimmer or swimmer representative who completes a USA Swimming entry form attests that all times stated in the entry form are true and correct as achieved qualifying times for each event entered. He/she assumes all responsibility for false or incorrect times, or times which are unacceptable under USA Swimming rules, and shall be assessed a \$100 penalty payable to the Corporation for each such time entered, unless absolved of the fine by USA Swimming or its designee or Board of Review. Additional action or penalty may be taken or levied as deemed appropriate by USA Swimming.

If a qualifying time was swum at a USA Swimming observed high school meet, verify that it is in the database before using it for entry. Contact the LSC Times Official in the LSC where the meet was held if there are missing times or questions about whether the meet was observed. Times from all major international championships will be automatically entered in the database. Times from any other meets in which National time standards were met must be requested from the SWIMS Time Official in the LSC in which the meet was held. LSC officials may charge a fee for data entry requested after the meet ends. Requesting SWIMS data entry won't enter a swimmer into a competition nor place your club on the USA Swimming mailing list.

Please visit [usaswimming.org](http://usaswimming.org) to access the webcast.

**Safety Plan:**

Masks/Face Coverings: As per Indiana University and State of Indiana regulations, all meet participants – coaches, officials, athletes, and meet staff - must wear face masks/coverings at all times while in the Natatorium including entry and exit. Compliance with this requirement will be checked at entry doors and monitored throughout the meet. Anyone who refuses to wear a face mask/covering will be turned away at the entry doors and/or asked to leave the venue. Face masks/coverings can only be removed while eating, drinking, or while in the water.

Athletes are required to wear face masks/coverings at all times they are in the Natatorium including entry, exit, while seated in the on-deck bleachers, and on the pool deck when walking to and from races/warm-up/cool-down. Athletes will be permitted to remove their face masks/coverings when reporting behind the blocks for warm-ups and races at which time athlete face masks/coverings will be placed in a zip lock bag and placed on the deck behind each swimmer's block/lane. Upon exiting the pool after their races/warm-ups/cool-downs, athletes are required to put on their face masks/coverings before any movement around the pool deck.

Handwashing: Hand sanitizing stations will be located throughout the venue and at both entrances. Frequent washing of hands is an expectation of all participants.

Coach Credentials: Teams are limited to one (1) coach per every ten athletes competing in a session. There is no charge for a coach deck pass.

Exit & Entry Procedures: Staggered arrival times will be assigned to decrease the participant density in the parking garage and at Natatorium entrances. Two entrances will be used: The Natatorium Sports Garage Entrance and the University Boulevard Entrance. Athletes will enter through the Sports Garage entrance; non-athletes will enter through the University Boulevard entrance. There will be a security table at each deck entrance where temperatures will be taken and waivers confirmed. Participants are expected to maintain social distancing at all entrances and exits.

Deck Seating: Team/athlete seating areas will be pre-assigned on the deck bleachers to ensure social distancing and to eliminate interaction among teams. There will be no more than six (6) athletes per deck bleacher; normal capacity is 30. There will be signage on each bleacher to indicate capacity and seating spaces.

Deck Flow: A one-way traffic pattern will be observed on the pool deck. (See venue diagram on page 12.) Social distancing must be observed at all times on the pool deck. Athletes will remain in team bleachers after warm-ups. Only three heats of athletes will be permitted to stage prior to each race - one heat at the blocks; one heat 6 feet behind the blocks; and one heat in deck staging area as designated with floor decals that are six feet apart (see Ready Room on page 7). Upon completion of their last event and cool-down, athletes will be asked to immediately leave the deck via the west deck stairway.

Locker Rooms & Restrooms: To limit the use of locker rooms, athletes will be asked to enter and exit the venue in their warm-up attire. Limited/monitored capacity will be maintained in the locker rooms and restroom based on the square footage of each space and social distancing guidelines. Monitors at each entrance will insure compliance.

Four (4) locker rooms will be used to ensure social distancing; teams will be assigned to specific locker rooms based on the location of their team bleacher (east deck, west deck). All four (4) locker rooms will be available for the gender competing in that session. Locker room capacity will be monitored using Indiana State Board of Health guidelines. Locker rooms will be thoroughly cleaned and sanitized between sessions.

Only the four (4) on-deck restrooms will be used. These will be reserved for non-athlete use only. Athletes will use the restrooms in their assigned locker rooms.

Heat Sheets: This meet will be pre-seeded. Heat sheets will be available using Meet Mobile. Heat sheets will also be posted at [usaswimming.org](http://usaswimming.org) as well as in the venue. No paper heat sheets will be distributed at the meet.

Venue Safety Plan: The complete venue safety plan can be found on the event page at [usaswimming.org](http://usaswimming.org)

**Additional  
Information:**

Medical: First aid will be administered by the IU Natatorium lifeguard staff who will serve as first responders. There will be an onsite certified medical officer to handle emergency treatments and monitor Covid-19 compliance.

Lost and Found: There will be no lost and found services available at this competition.

Hotel Blocks: The meet host has obtained hotel blocks at the downtown Indianapolis Marriott complex and the Courtyard at the Capitol. Both are within walking distance of the Indiana University Natatorium. A link to the reservation sites for all properties will be published on the event webpage at [usaswimming.org](http://usaswimming.org)

## Doping Control:

The 2020 Toyota U.S. Open Championships are subject to Doping Control. All athletes at this competition are subject to drug testing conducted by the United States Anti-Doping Agency (USADA), WADA, and/or FINA under the In-Competition Testing program. This section is intended to give an overview of the key points relevant to this program and the testing which will be conducted at the competitions governed by this booklet. Athletes should visit [usada.org/athletes/antidoping101/](https://usada.org/athletes/antidoping101/) for important information that all athletes, coaches, and their parents must be aware of. Key details from that document are listed below. Athletes should check their medications prior to use and note that some medications may require approval that will take at least 21 days.

### What substances are banned?

Per USADA: "As a signatory to the World Anti-Doping Code, USADA tests for substances and methods found on the World Anti-Doping Agency [Prohibited List](#). It's important that athletes are aware of the substances and methods on the Prohibited List, as an athlete is responsible for any prohibited substance found in their body, regardless of intent. It's also important to understand that certain substances are prohibited at all times, while others are prohibited only during competition. In some cases, a substance is only prohibited in a certain sport. Use the resources on this tab in conjunction with the next step about medication and the resources available pertaining to medication to determine whether or not a substance is prohibited." [Read the Athlete Guide to the WADA Prohibited List](#)

### What about medication?

Per USADA: "Athletes need to be aware of the prohibited status of any medication they are taking, whether it be an over-the-counter or prescription medication. The easiest way to understand your medication is to use USADA's [Global DRQ](#) service, where generic and name brand products, or specific medications, can be searched. Results will yield information including the in- and out-of-competition status, any threshold information, as well as sport specific information for those substances prohibited only in certain sports. Athletes or their support team can also speak to an expert by phone during business hours [8am – 5pm Mountain Time Monday-Friday] by calling Athlete Express at 719.785.2000.

The [USADA wallet card](#) also provides information on the most commonly ingested medications. If and when a medication is prohibited, athletes may choose to stop taking or replace the medication with a non-prohibited substance or explore the [Therapeutic Use Exemption](#) process. *Your health is your first priority. Any decision to stop or start a medication should be made in consultation with your medical provider.* It's important to understand that Dietary Supplements are not medication. They are regulated and manufactured differently. For these reasons, USADA is unable to provide guidance on specific dietary supplement products. For more information visit [USADA's Supplement 411 resource](#).

### Therapeutic Use Exemptions?

Per USADA: "In some situations, an athlete may have an illness or condition that requires the use of medication listed on the World Anti-Doping Agency's [Prohibited List](#). A Therapeutic Use Exemption or TUE provides permission for an athlete to have a prohibited substance in their body at the time of a drug test. The process for obtaining a TUE is thorough and balances the need to allow athletes access to critical medication while upholding clean athletes' rights to compete on a clean and level playing field. In some cases, the TUE requirements are different for national-level athletes vs. non-national level athletes. Athletes interested in obtaining a TUE should visit the [Therapeutic Use Exemption](#) page, where they can determine if they need a therapeutic use exemption, begin the application process, and find answers to the most frequently asked TUE questions."

### Understand the Sample Collection Process:

Per USADA: "Athletes selected for testing are subject to both blood and urine testing. The processes are designed to be both effective in preserving the integrity of the sample, yet safe and comfortable for the athlete. Understanding the processes as well as an athlete's rights and responsibilities can help to make them less intimidating. There are additional considerations for minor athletes and disabled athletes. Learn more about the sample collection processes [here](#)." NOTE: Minor athlete should always have a representative with them in doping control.

*Per established doping control testing protocol, a Witnessing Chaperone must directly observe an athlete providing a sample. The witnessing chaperone is always someone of the same gender as the athlete. To protect the rights of a minor athlete, someone must observe the witnessing chaperone observing the athlete as they provide a urine sample. That person cannot see the athlete – they can only see the witnessing chaperone watching the athlete. Per USADA's established protocol the athlete has the right to choose who will be in that role. In the event that a coach acts as an Athlete Representative for an athlete of the opposite gender, they may request that someone on USADA's crew observe the witnessing chaperone observing the athlete. Then the coach can be the athlete representative for the rest of the processing of the paperwork.*

**NCAA doping control rules are different than the rules for this meet. Be sure all athletes have checked their meds with USADA and understand this information.**

**Doping Control rule for athletes previously eligible for out of competition drug testing:** Athletes who were previously eligible for out of competition (no-advance-notice) doping control and officially retired have a 6-month waiting period before they can compete (should they choose to return to competition) and must again be subject to out-of-competition testing during this reinstatement period. The athlete is not permitted to compete in any USA Swimming sanctioned events (local competitions all the way up through National competitions including meets with a dual sanction from Master's and USA Swimming) or FINA sanctioned events. If you have an athlete in this situation, please email [smichael@usaswimming.org](mailto:smichael@usaswimming.org) immediately.
