NASA Meet Safety Policy and Procedures – COVID

The safety of our athletes, coaches and families is of the utmost importance. With the current situation in regards to the COVID-19 pandemic, NASA will be adhering to the following COVID-19 Policies and Procedures, as well as those implemented by Middlebury Community Schools, Northridge High School and Northridge Middle School. These procedures will be in place during all NASA hosted meets at both the High School and the Middle School Facilities.

The following procedures will be implemented for NASA Hosted Meets.

- Max limit of four (4) swimmers per swimming lane, starting from opposite ends (in accordance with USA swimming guidelines).
- Teams will be assigned warm up and locker room time to be able to adhere to social distancing guidelines.
- All swimmers/staff will wear a facemask while in the facility/on the pool deck until they are ready to get into the water.
- Any swimmers/staff member found to have any of the COVID symptoms will be asked to leave the facility.
- Upon entering the facility, all will be required to sanitize hands using provided sanitizers/wipes stationed on a table inside the door. Swimmers & staff will also have their temperature (no higher than 100.4 per CDC Guidelines) and symptoms checked by an MCS Aquatics Staff member prior to entry into the facility.
- All swimmers and staff members entering the facility will be tracked through coach/official sign in sheets, volunteer check-in sheets, and swimmer check-in sheets on a daily basis.
- The meet will be pre-seeded and coaches will receive a check-in sheet each session to let facility staff know who was in the facility each session.
- All ages will utilize a clerk of course as a means to control how many swimmers are behind the blocks at any time.
- A ready room will be established for the next heat up to get ready without crowding the starting block area.
- A traffic flow pattern will be utilized so the swimmers who just finished and swimmers who are next will not pass each other as they enter or exit the starting block area. Fly-Over starts may be used as well.
- Everyone in the building should maintain at least a 6' social distancing between him or her and anyone else that is not an immediate family member.
- Team will be assigned areas around the pool deck and/or in the adjacent fieldhouse for their athletes to camp out.
- Swimmers and staff members will need to provide their own water and water bottle. Use of drinking fountains, by swimmers, is prohibited at this time. If a swimmer needs more water during or before a meet a designated staff member will fill up the water bottle for the swimmer.
- Once a swimmers events are complete they will be asked to dry off, get dressed, and exit the facility promptly.

LOCKER ROOM PROCEDURES

- Swimmers should arrive to the meet in their swim attire.
- The use of locker rooms during the meets will be reserved for restroom breaks only, with not more than two (2) patrons in the locker room at any given time. This will be monitored by deck marshals.
- Nothing should be left in the locker room and should be taken on deck with the swimmer.
- Showers will not be available.
- Swimmers will wear masks at all times while in the locker rooms and will maintain social distancing.
- Facility staff may limit the number of swimmers or the amount of time a swimmer can be in the locker room at any time to make sure the facility is in compliance with any state or local regulations.
- Swimmers may change out of their wet swim attire after the meet but will be expected to change/use the restroom quickly and exit the locker room.

HEALTH SCREEN

Facility Staff may conduct a health screen by checking swimmers/coaches/volunteers temperatures and asking about COVID symptoms prior to gaining entry into the facility. The most concerning threat to an organized sports team is rapid spread within the group. Effective containment depends on early symptom identification, removal from meet (isolation), and strict guidelines regarding return to meets.

If you had any of the **following symptoms in the past 24 hours**, please remain at home and do not return to practice until you are symptom free for 24 hours. If practical, go to a testing facility to be assessed.

- Unexplained rash
- Diarrhea
- Vomiting
- Cough
- Shortness of breath/difficulty breathing
- Fever
- Chills
- Muscle pain or body aches (outside of the normal)
- Sore throat
- New loss of taste or smell

Have you tested positive for COVID-19 or otherwise been diagnosed with COVID-19 within the last 14 days? If you answer yes, all three of the following are required before being able to participate in a meet: a minimum of 14 days of self-quarantine from the positive test, 72 hours with no symptoms, and a subsequent negative test.

Have you have had close contact within the last 14-days with someone who has COVID-19 or who has any of the above symptoms? (Note: Close contact is defined as within 6 feet for more than 10 minutes per CDC Guidelines.) If you answer yes, to participate in the meet the swimmer should have no symptoms for 72 hours, a negative test, and no additional close contact with the infected individual.

ADDITIONAL SAFETY EXPECTATIONS

- All families must return a signed copy of the MCS Aquatic Facilities COVID waiver to be permitted to attend the meet.
- Swimmers will only be permitted to enter the building 15 minutes before their scheduled warm up time. If they arrive early, they must wait in their car until the appropriate time to enter the building.
- Parents/spectators will not be allowed in the building at any time and are expected to practice social distancing when waiting for their swimmer. We understand this may bring Safe Sport concerns. We will have multiple coaches, lifeguards, and staff on site always. This will allow us to exceed “two deep leadership” and operate well within the requirements of Safe Sport. Doors will be unlocked to allow parents access to the deck/meet marshals in case of emergency.
- All doors to the building will be propped open to limit athletes from touching any surfaces.
- Athletes should bring their own water bottles (already filled). Use of the water fountains at the facility will be prohibited.
- MCS staff will be disinfecting the bathrooms throughout the day. Additionally, the entirety of both facilities will be disinfected between session and at the end of each day.
