

## Velocity Aquatics and the 4<sup>th</sup> of July

Beginning this year, Velocity Aquatics is a full member of the Delano 4<sup>th</sup> of July Committee. This is a huge opportunity for us in terms of financial benefits, as well as, visibility and awareness of our club. With this opportunity, comes a responsibility for us to ensure the overall success of the event by supplying volunteers from our club.

We have 2 primary responsibilities for this event, which will take place July 1-4.

### **Beverage Tents**

Oversee the staffing and operations of the beverage tents / beverage stands. We have 3 parents who have been actively recruiting to fill the shifts with volunteers for the 4 day event. The management team of Velocity volunteers will be there to oversee operations, train volunteers, help with shift changes, etc. We also need a few people to help set up the park for the event and clean up afterwards. That may be a good volunteer opportunity for someone who can't commit to being there over the weekend of the actual celebration.

**Volunteer needs:** We need 3-4 people who can be available the week of June 27 to help set up for the event, 7-10 who can be available during the event to work a couple shifts as part of the management team, and 2-3 who can be available for cleanup on the day after the event.

### **Snack Shack (cookies & ice cream)**

We need 2 people who can oversee the staffing and operations of the Snack Shack. The difference here is that we share the responsibility with another group (the Delano Sportsmens Club) and we also need to fill the shifts with some Velocity worker volunteers...ideally some kids. The club felt strongly that we wanted to make sure part of our responsibilities for the event would be something where the kids could get involved.

**Volunteer needs:** For this booth we need 1 person who can be responsible for recruiting Velocity volunteers to fill the shifts. We also need 6-8 volunteers who can share the responsibility of overseeing the volunteers during the event, helping to ensure the shifts run smoothly. And we need 1-2 who can help with clean up the day after the event.

Please reach out to Lisa Seguin for more information.
