Blazers Families:

How different our world looks in just a small space of time. We hope that you and your families are safe and healthy. The decision from Governor Kelly yesterday to close schools till the end of the school year will have a major impact on what we do and how we do it, if and when we are cleared to resume swimming in groups.

As all of this changes the Board, coaching staff, JCPRD and our partners are all working through the permutations of what is next and how we are going to walk through these unprecedented times.

We are examining the short term and long term impact of this and how the club is going to navigate the ever-changing obstacles that we have.

First and foremost is the safety and health of our families and their members. As most of you may have anticipated we have postponed the team banquet indefinitely until such time as it could be held safely.

We are also looking at fees and dues and what services we are able to provide.

We hope to have a clear plan with input from the Board and JCPRD as to our next steps by the end of the week and will look to send an update via email you all at that point.

Missouri Valley Swimming as adopted a resolution that states we will follow all recommendations from USA swimming in regards to meets, gatherings and other protocols concerning COVID-19.

We are not the only club going through this, but I am thankful that we have partners that will help us through these troubling times. Our team is in good standing and as we weather this storm please know that we are preparing to be able to hit the ground running once "normality" resumes.

During this time remember your team, teammates and our swimming community. Reach out to one another, and if you can safely help those in need please do so.

Regards,

George Adcock, Head Coach
Kansas City Blazers
