

Our team is required to provide volunteers for every meet. When we host a meet, we need even more volunteers. Below you will find instructions on how to sign up.

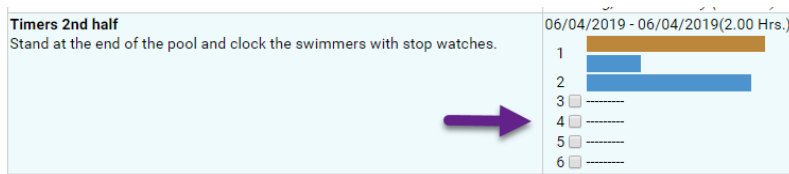

Sign in, in the menu select “Events & Competition” > “Team Events”

This will display a page listing all the team events. Click on the “Job Signup” button next to the desired event.

Find the area you wish to signup for, for this example we will use a lane timer. Check one of the available slots:

Click the “Signup” button at the top/bottom of the page:

Provide additional optional information. The account holder name will automatically show up as the volunteer. You can provide additional details here. Some examples would be if a friend is helping, maybe their name and/or contact number. We frequently will put the name of the person that is planning to fulfill this volunteer position (if not the name the account is under, ie a spouse).

Please Supply Your Volunteer's Information ✕

Please provide any additional contact information for the person who will actually be doing the work.

Optional Contact Info:

You are done, thank you for volunteering.

PS: If you make a mistake and signup for the wrong thing. Simply select the signup entry that needs to be removed and at the top/bottom of the page, click the “Remove Signup” button.
