

The Cape Cod Swim Club LOCKER ROOM POLICY
for Competitive Swimmers

PURPOSE

The following guidelines are designed to maintain personal privacy as well as to reduce the risk of misconduct in locker rooms and changing areas.

FACILITIES:

The Cape Cod Swim Club practices at multiple facilities with varying locker room availability and restrictions. The following are general guidelines:

- (a) In facilities with no locker room or changing facilities, swimmers will be expected to come dressed for practice and to change and shower at home.
- (b) In facilities with changing areas that are shared with the general public, there are likely to be people who are not associated with the CCSC in the changing area around the time of practice.
- (c) Some facilities offer a changing area and locker room dedicated to our swimmers.

MONITORING:

General Policy Considerations:

Coaches and staff make every effort to recognize when an athlete goes to the locker room or changing area during practice and competition and, if they do not return in a timely fashion, we will check on the athlete's whereabouts.

We discourage parents from entering locker rooms and changing areas unless it is truly necessary. In those instances, it should only be a same-sex parent. If this is necessary, parents should let the coach or administrator know about this in advance.

If an athlete needs assistance with his or her uniform or gear (for example, a child under the age of eight), or an athlete's disability warrants assistance, then we ask that parents let the coach or an administrator know beforehand that he or she will be helping the athlete.

Policy:

The Cape Cod Swim Club has staggered practices, with different groups arriving and departing throughout the day. It is therefore not practical to constantly monitor locker rooms and changing areas over this extended course of time. While we do not post staff inside or at the doors of the locker rooms and changing areas, we do make occasional sweeps of these areas. Gender appropriate staff or volunteer conduct these sweeps, with women checking on female locker rooms, and men checking on male locker rooms.

USE OF CELL PHONES AND OTHER MOBILE RECORDING DEVICES:

Cell phones and other mobile devices with recording capabilities, including voice recording, still cameras and video cameras increase the risk for different forms of misconduct in locker rooms and changing areas. The USA Swimming Athlete Protection Policies prohibit the use of such devices in the locker room or other changing area:

Article 305.3 Use of audio or visual recording devices, including a cell phone camera, is not allowed in changing areas, rest rooms or locker rooms.
