

Going into our Halloween meet weekend, I just wanted to hit on some items that you can put out to your teams. Regarding deck flow and our COVID policies, we're going to run the meet very similar with how KEY ran their meet a couple weeks ago.

Our bleachers will be removed for more deck space for coaches, this area will be roped off to keep parents out, we of course want swimmers to get feedback before/after races from you. Swimmers will enter the pool through the family locker room, closest to the diving blocks. Only two heats at a time behind the blocks (we will use our PA system to announce events throughout our gyms). Swimmers will exit through the locker rooms. There will be clerk of course for the Saturday afternoon session only. Sunday given the holiday and fewer entries we're slotted to finish earlier than in previous years. Ribbons will be sent out to your Y's, no need to stick around after on Sunday.

Our COVID policies are we are asking all those that are not vaccinated to wear face masks, this will not be enforced. We are also asking that the 11 & unders wear face masks when not swimming, being this is the only age group not able to get the vaccine at this time. No extended family at the meet, we will not have a livestream. Parents at the meet can watch from the shallow end by entering and exiting through the locker rooms.

We are still looking for officials, please contact Chad Jones (chadjon@hotmail.com) if you have anyone able to help with a session.

Again, looking forward to a great meet- we'll see you on deck!
