The Practice Calendar contains practice dates/times/locations for all of our training groups. It is a Google calendar, so it is exportable to your own electronic calendar. Looking at the entire calendar can be a bit overwhelming, so we have designed it to be flexible for your family’s needs.

The default “view” of the calendar includes all “events”. To view only the training group(s) that your swimmers attend, click the drop-down box in the upper right corner (see below). In that box, de-select the groups you don’t want to display.

The calendar may be viewed by month, week, or agenda by using the tabs in the upper right of the calendar.

Some families prefer to import the calendar to their own electronic device. Click the “+Google Calendar” button in the lower right corner to add to your personal calendar. Follow the on-screen instructions.

What does it mean when the calendar indicates TBA?

In this case, there is an event at one of our pools which prevents us practicing there (like a HS meet or water polo match). Most likely, our practices will be moved to different locations/times so that we don’t have to cancel practice. Check the calendar again at a later date to determine the practice status.

What happens if there is bad weather?
We follow the calendar/operations of the schools where we practice. If a school district cancels school due to weather, we most likely will cancel practices as well. The website and a text from remind.com will always be your best source to check for last minute changes. As soon as we receive confirmation from our host pools, we will post the information.

What if I can’t see the entire calendar in my browser window?

Depending on your browser settings or screen size, you may not be able to view the entire calendar under the monthly view. Switching to either weekly or agenda view usually solves this problem.

What if I can’t see the calendar in my browser window at all?

It may help to clear your browser's cache and or cookies.
