

# Splashers COVID-19 Safety Procedures

*The health and safety of our swimmers, coaches and community are paramount during the COVID-19 outbreak. The following procedures MUST be followed until further notice if your child participates in Splashers lessons. Please ensure that your family understands the following procedures. Read all communications from Splash Club during this time to receive important safety updates.*

## Swimmers & families are expected to rigorously adhere to the following steps.

### Facility Entrance (See map)

Swimmers are required to enter the facility via the West doors located on Jennings Avenue. These are the only doors swimmers can use to enter or exit the facility.

### On-Time Drop Off & Pick Up

Swimmers MUST be dropped off and picked up ON TIME. Families will have a **10-Minute** window prior to the start of lessons to complete our drop off procedures. **Please wait for the thumbs-up from the person doing the screening before driving away from the facility.** Families will have 10 minutes after the conclusion of lessons to pick up their swimmer. Please pick up your child on time so that the next class can begin on time.

### Masks Required

Swimmers are required to wear face coverings at all times while in the facility (except in the water). If your child arrives at the pool without a face covering they will be sent home. Instructors will wear face shields.

### Screening

Swimmers will be screened prior to entering the facility via a no-contact temperature check. Swimmers who register a temperature will be sent home. Please wait for the thumbs-up from our screener before driving away from the facility. Do NOT bring your child to the pool if they are displaying any symptoms of illness, if they are in quarantine or have been in close contact with COVID.

### Limited Patrons in Facility

We have limited the number of swimmers per class and will periodically reevaluate these numbers and implement changes as the COVID-19 crisis continues to evolve. NO parents, siblings or spectators are allowed in the facility at this time.

### Social Distancing

Swimmers should maintain social distancing while in the facility. We socially distant "drop zones" where swimmers can place their clothing, bag and towel. Drop zones are sanitized after each class.

### No Changing Facilities

Locker room changing areas will NOT be available. Swimmers should wear their suits to and from the pool. NO deck changes are permitted. Toilets and sinks will be available for use.
