

Water Rescue Non-Emergency

2 Whistles

**Point at the casualty
and safely enter the
water**

Perform the appropriate
water rescue

Extricate the casualty
safely

Evaluate casualty

**Continue care until
Programmer takes over
and return to the stand**

If needed, blow 3
whistles for 911 and
provide care as needed

If casualty is OK,
monitor until
Programmer arrives

**Once you are in the
fishbowl (deck rotation
or off shift) check in with
the Programmer to sign
off on needed paperwork**

**At the end of your shift
(or during paperwork)
you will have a brief
check in with the
on duty Programmer**
