

To complete the Mandatory Athlete Protection Training Certification, please follow the directions below:

Sign in to your usaswimming account under your athlete name. <https://www.usaswimming.org/sign-in>

Select Safe Sport tab

Scroll down to "Take a Safe Sport Class", choose middle link called Athlete Protection Training and follow word document for steps.

1. Enter your first name, last name, and birthday. Make sure to use your legal name. Click the **Search** button.
2. When the system finds you, click on "CONTINUE" to access the LEARN site.
3. You must take **three** courses to complete the requirement:
 1. "Sexual Misconduct Awareness Education"
 2. "Mandatory Reporting"
 3. "Emotional and Physical Misconduct"
4. Once you have completed your courses, your membership record will update within 24 hours with a new APT expiration date.
5. Your APT will expire 12 months after you complete all three courses.

Members must always enter LEARN via www.usaswimming.org/learn or www.usaswimming.org/apt. If you create a non-member account, you will not receive credit for the courses that you take.

If you get a "No Results Found" message, one of three things has happened:

1. You may have made a typo on your name and birthday. Double check and resubmit.
2. If everything is correct and you are or have ever been a member of USA Swimming, it is possible that there is a typo in your membership information in the USA Swimming database. Contact your LSC registrar.
3. You have never been registered with USA Swimming. You must join through your LSC. New members will be required to have your application form and payment processed by your LSC registrar before you can sign in to complete the course.

See attached picture tutorial for steps.

I have also been asked what are the step to get to club portal. Here is a short tutorial.

Instructions for Accessing Your Team's Club Portal for SSRP and to check APT for 18 yo athletes....

Several reports have been created for each club via their club portal on the USA Swimming website. To access these reports:

- Log on to the USA Swimming website with your personal log in.
- Under the Member Resources tab, chose Club Portal Search

- Enter your team's name or club code, then click Search
- Scroll to the bottom of the page and click on Club Administrator Log In
- Scroll to the bottom and enter the Club Portal Password
- Click on Edit Club Portal

Notice the tabs of the different options that are available. There are several reports that are very helpful for the team.

- The Club Non-Athlete Roster will give a list of all of the non-athletes registered with the club, their ID number, position (coach, official, other) and earliest certification expiration date. For coaches it will also show if they have completed the Foundations of Education or need to prior to registering for the next year.
- The athlete report also gives the ID number, age, and date of registration expiration. This list only shows the athletes who are attached and registered to the team at that time. If a swimmer is not on the list, he is either not currently registered or is not currently attached to the team.
- All data is updated nightly so it is current information.

If you do not have your Club Portal Password or you have forgotten it, contact LSC Admin Chair or Registration Chair

I am also getting feedback that the athletes think is extremely long and annoying. You could share this...

I hear your feedback for sure. Sometimes I feel this way about trainings that I have to take, but that is part of being an adult.

I acknowledge where you are coming from and want to let you let know that many people have to do things that they don't like, and everyone has to do it.

This is just something that you are going to have to get comfortable and it is to protect you the athlete.

Thank you for all you do to make our sport safer!
