1	Im ready now, its no different than hiking or walking by people in the park	5/24/2020 11:28 AM
2	I myself have immunity now. Those who do choose to swim, should not do so under false impressions. So ASAP for me. Consider starting sets from both ends of the pool. Short course.	5/24/2020 9:50 AM

Q6 Please provide any additional feedback you would like to offer Santa Clara Swim Club regarding your feelings towards reopening.

1	Question 2 and 4 does not allow multiple selection so I want to clarify. For question 2, I prefer morning and evening because mid-day is harder for me during workdays. For question 4, I select 2 because both adults in our household are SCSC Masters so we are okay to swim in the same lane and may allow more swimmers to swim. I am okay with more people in the same lane if they are my lane-mates from before COVID-19 closure. We swam well together with the same workout and I trust them for their quarantine behaviors. Thank you for the survey and reading our ideas.	5/26/2020 4:54 PM
2	I feel it would be safest to limit swimmers to one per lane. For masters you could accomplish this with two early morning workouts. Maybe one at 5:00 and the other at 6:00. You could take sign ups for each of the workouts. In order to accomplish this, could you offer all morning workouts at the homestead pool? Thanks for all your efforts.	5/24/2020 9:10 PM
3	Go 2 per lane. Start on opposite ends of pool so you are never resting on the same wall	5/24/2020 11:28 AM
4	When we swim, it must be as whole people. Courageous, because the goals are that high. Caring, because success at the cost of family members or emotional health would be hollow.	5/24/2020 9:50 AM
5	I would not use the locker room. I definitely miss swimming and it would be nice to have an option to swim when it becomes safe to do so.	5/24/2020 9:48 AM
6	2 swimmers per lane if short course. 4 if long course.	5/24/2020 9:30 AM
7	I am hoping reopening can happen soon as that it's an important factor in maintaining my mental health. I would recommend shutting down the showers and lockers, but believe that the it is highly unlikely that there would be disease transmission in a chemically treated pool environment, where there is very limited bursts in time spent all at the wall. Look to the safety measures that have been established in pool program reopens in Europe.	5/24/2020 8:56 AM
8	With outdoor pool and some precautions measures as stated above, I am ready to be back to swim any time now.	5/24/2020 12:58 AM
9	Just encourage those who are sick to stay home.	5/23/2020 10:37 PM
10	The sooner the better, please	5/23/2020 9:29 PM
11	look forward to it. maybe each person gets to swim on certain days of the week	5/23/2020 8:56 PM
12	Group of people I swim matters to me. Would be nice to be able to see and swim with others within safety measure	5/23/2020 8:10 PM
13	I really hope that the Masters Program is treated better by the Club than they were over the winter before the lockdown and SIP. Being banished to Mary Gomez so late at night for weekday workouts was such a disappointment. There are not enough lanes there for the number of people that wanted to swim. The pool is too shallow at one end for Masters swimming. Those conditions made it very difficult to get a decent workout in. The club should treat its Masters swimmers better.	5/23/2020 8:05 PM
14	I am an RN working full time during this crisis. I would feel comfortable returning to the pool if we keep locker rooms closed and restrict number of people per lane.	5/23/2020 8:02 PM
15	Please open as soon as the county allows	5/23/2020 7:50 PM
