Subject: FHCC - Coronavirus Preventative Measures...

Dear Members,

Fremont Hills Country Club has procedures addressing a variety of health & safety issues, but I thought I'd let you know that we recently updated our flu prevention & pandemic guidelines in direct response to the emergence of the Coronavirus (COVID-19). These guidelines are based on guidance from the U.S. Centers for Disease Control & Prevention and the World Health Organization.

These include common sense hygiene practices that are good to follow whether or not it is cold & flu season. Things like frequent and thorough hand washing, good coughing & sneezing etiquette and avoiding contact with others when you're sick. Our staff are being encouraged to stay home and take care of themselves before they come to work and take care of our members. That's the best way we can help minimize the spread of the illness.

We will increase the frequency of our cleaning of hard surfaces beyond our normal routines, particularly points of common contact like doorknobs & light switches.

As for our members, I would encourage each of you to take good care of yourself by following the recommendations of your own doctors and government health authorities, and taking the necessary steps to

protect yourself and your family during this flu season. Like our staff, we encourage you to stay home and take care of yourself & your family if you have been experiencing flu-like symptoms.

Taking care of our members and their guests is the cornerstone of Fremont Hills' culture. And this season, we'll need everyone's support to do that.

Thank you for your help in ensuring the health of our team at Fremont Hills Country Club.

Sincerely,

Scott Domnie

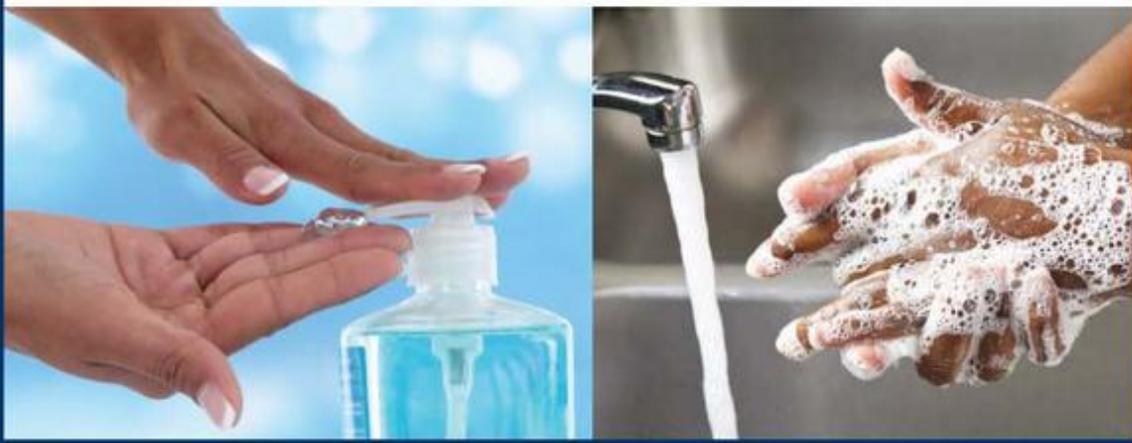

General Manager

Fremont Hills Country Club
