

Tori DelMastro

I have been a member of Karakung for five years and have two daughters on the swim team. I love our Karakung community and the swim program. I grew up as a swimmer and lifeguard and have worked at many different pools over the years. I am invested in getting more kids interested in competitive swimming and improving the overall member experience at our club. I've helped develop a mascot for our team and volunteered for swim team events. Our family spends most of our summer days at the pool and refer to it as "camp Karakung." I am grateful for the hard work the board puts in to maintain our club and look forward to helping out. I have served on our elementary school PTO board and am currently co-chair of our township's IntraDistrict Council. If elected, I have a particular interest in working to expand our snack bar options.
