Each team will follow the safety procedures designated by the host pool.

All rules, as listed below, have been agreed upon by the member pools and will not be open for change, unless deemed necessary by a two-thirds (2/3) vote of the HSL Board. Any infractions of rules regarding a decision as to possible disciplinary action will be handled in accordance with the League’s Protest Procedures.

Expenditures will be consistent with the budget approved by the League Board. Any expenditure in excess of 10% of the approved budget requires a majority vote of the League Board.

- 70.2 Division Balancing.** The League board will determine the divisional structure for the upcoming season at the October meeting. Any new team(s) added to the league will be placed in the division which balances the number of teams per division. In the event that head-to-head ranking still results in a tie, then the tie will be broken by summing the difference in the scores between the wins for the tied teams. The team with the greatest score demonstrates the greatest strength within the tied teams. Any teams tied after these criteria will be declared co-champions.

 - C On the Starter's command "take your mark", the swimmers shall immediately assume their starting position, in the forward start, with at least one foot at the front of the starting platform or the deck. Swimmers starting in the water must have at least one hand in contact with the wall or starting platform. When all swimmers are stationary, the starter shall give the starting signal.

Swimmers remaining on the starting blocks shall be relieved from their starting positions with the "Stand up" command and may step off the blocks. The Starter shall restart the race upon signal by the Referee.
 - B If the starting signal has been given before the disqualification is declared, the race shall continue without recall. If the Administrative Referee independently observes and confirms the Starter's observation that a violation occurred, the swimmer or swimmers who have false started shall be disqualified upon completion of the race.
 - C If the recall signal is activated inadvertently, no swimmer shall be charged with a false start and the Starter shall restart the race upon signal by the Administrative Referee.
 - D A swimmer who would otherwise be charged with a false start may be relieved of the charge if the false start was caused by the swimmer's reaction to the "stand up" command.

101.2 BREASTSTROKE

- .1 **Start.** The forward start shall be used.
- .2 **Stroke.** From the beginning of the first arm stroke after the start and after each turn, the body shall be kept on the breast. It is not permitted to roll onto the back at any time. Throughout the race the stroke cycle must be one arm stroke and one leg kick in that order. All movements of the arms shall be simultaneous and in the same horizontal plane without alternating movement. The hands shall be pushed forward together from the breast on, under, or over the water. The elbows shall be under water except for the final stroke before the turn, during the turn and for the final stroke at the finish. The hands shall be brought back on or under the surface of the water. The hands shall not be brought back beyond the hip line, except during the first stroke after the start and each turn. During each complete cycle, some part of the swimmer's head shall break the surface of the water. After the start and after each turn, the swimmer may take one arm stroke completely back to the legs. The head must break the surface of the water before the hands turn inward at the widest part of the second stroke.
- .3 **Kick.** After the start and each turn, a single downward butterfly kick followed by a breaststroke kick is permitted while wholly submerged. Following which, all movements of the legs shall be simultaneous and in the same horizontal plane without alternating movement. The feet must be turned outwards during the propulsive part of the kick. A scissors, flutter

or downward butterfly kick is not permitted except as provided herein. Breaking the surface of the water with the feet is allowed unless followed by a downward butterfly kick.

- .4 Turns and Finish.** At each turn and at the finish of the race, the touch shall be made with both hands simultaneously at, above, or below the water level. The head may be submerged after the last arm pull prior to the touch, provided it breaks the surface of the water at some point during the last complete or incomplete cycle preceding the touch.

101.3 BUTTERFLY

- .1 Start.** The forward start shall be used.
- .2 Stroke.** After the start and after each turn, the swimmer's shoulders must be at or past the vertical toward the breast. The swimmer is permitted one or more leg kicks, but only one arm pull under water, which must bring the swimmer to the surface. It shall be permissible for a swimmer to be completely submerged for a distance of not more than 15 meters (16.4 yards) after the start and after each turn. By that point, the head must have broken the surface. The swimmer must remain on the surface until the next turn or finish. From the beginning of the first arm pull, the body shall be kept on the breast. Both arms must be brought forward over the water and pulled back simultaneously.
- .3 Kick.** All up and down movements of the legs and feet must be simultaneous. The position of the legs or the feet need not be on the same level, but they shall not alternate in relation to each other. A scissors or breaststroke kicking movement is not permitted.
- .4 Turns.** At each turn the body shall be on the breast. The touch shall be made with both hands simultaneously at, above, or below the water surface. Once a touch has been made, the swimmer may turn in any manner desired. The shoulders must be at or past the vertical toward the breast when the swimmer leaves the wall.

Standing in or on the gutter, placing the toes above the lip of the gutter, or bending the toes over the lip of the gutter, before or after the start, is prohibited.
- .2 Stroke** — The swimmer shall push off on his back and continue swimming on the back throughout the race. Some part of the swimmer must break the surface of the water throughout the race, except it is permissible for the swimmer to be completely submerged during the turn, at the finish and for a distance of not more than 15 meters (16.4 yards) after the start and after each turn. By that point, the head must have broken the surface of the water.
- .3 Turns** — The backstroke turn shall be in accordance with the Harford County High School rules.
- A** From the 2005-2006 National Federation of State High School Associations Swimming Rule Book, page 48, Rule 8-2
- B** "The turn requires that some part of the swimmers body contact the end wall. After the swimmer's head has passed the backstroke flag, prior to the turn, the swimmer's right shoulder may (but is not required to) rotate past the vertical toward the breast before the touch is completed provided such rotation is accompanied by an initiation of the turning action or continuation into the wall.
- C** The initiation of the turning action shall be accomplished by a single-arm or simultaneous double-arm pull, or in the absence of such pulls, by a downward, underwater movement of the head.
- D** After the initiation of the turning action, no additional arm pulls may be started; however, kicking and gliding actions are permitted."
- E** If during the swim, a swimmer attains a vertical position in the water (vertical = at a right angle to the normal water level), the swimmer is deemed to be no longer on the back as prescribed by the stroke rules for the backstroke. The swimmer shall be disqualified.
- .4 Finish** — Upon the finish of the race, the swimmer must touch the wall while on the back.

101.5 FREESTYLE

- .1 Start.** The forward start shall be used.
- .2 Stroke.** In an event designated freestyle, the swimmer may swim any style, except that in a medley relay or an individual medley event, freestyle means any style other than butterfly, breaststroke or backstroke. Some part of the swimmer must break the surface of the water throughout the race, except it shall be permissible for the swimmer to be completely submerged during the turn and for a distance of not more than 15 meters (16.4 yards) after the start and each turn. By that point the head must have broken the surface.

E Omit. Timing Judge.

F Results Reviewer. The Results Review Coordinators will be provided by the home team and the visiting team. They receive the event time sheets from the Runner. They review each sheet and circle the official time for the swimmer prior to entry in Meet Manager. Each Results Review Coordinator will double-check the others circled time prior to submitting it to the Computer Operator. The official time is determined by one of the following ways:

- (1) If the times of 2 of the 3 watches agree, that shall be the official time.
- (2) If all 3 watches disagree, the time of the intermediate watch shall be the official time.
- (3) If only 2 watch times are available, the times are averaged. The digits representing thousandths of a second shall be dropped with no rounding.
- (4) If only 1 watch time is available, it is official time.
- (5) The official time shall be recorded to one one-hundredth ($1/100 = 0.01$) of a second.
- (6) After the official time is determined, the sheets are then passed down to the Meet Manager Computer Operator.

ARTICLE 105

GUIDELINES FOR OFFICIATING SWIMMERS WITH A DISABILITY

105.1. GENERAL —

- .1 **Authority.** The League Rules & Regulations grant the Referee the authority to modify the rules for the swimmer with a disability. Disability is defined as a permanent physical or mental impairment that substantially limits one or more major life activities. This section contains guidelines and suggestions for making such modifications.
- .2 **Responsibilities —**
 - A Athlete. The athlete (or the athlete's coach) is responsible for notifying the Referee, prior to the competition, of any disability of the athlete. The swimmer/coach shall provide any assistant(s) or equipment (tappers, deck mats, etc.) if required.
 - B Referee. The Referee's responsibilities include:
 - (1) Inquiring regarding the athlete's needs and determining what modifications will be required.
 - (2) Instructing the Starter and Stroke & Turn officials as to the accommodations to be made for that swimmer.
- .3 **Modifications.** Some of the modifications which the Referee may make to accommodate the athlete with a disability are:
 - (1) A change in starting position.
 - (2) Reassignment of lanes within a heat, e.g., exchanging Lanes 2 and 7.
 - (3) Allowing the athlete's assistant(s) on the deck or in the water to assist with a start. Other allowable modifications are further described in this section under the type of disability.
- .4 Omit.

105.2. BLIND AND VISUALLY IMPAIRED —

- .1 **Start.** With an audible starting system, no modification is usually required for a blind or visually-impaired swimmer. They may, however, require assistance getting to and on the block. Should they feel insecure starting from the block or deck, an in-the-water start may be allowed.
- .2 **Turns and Finishes.** A blind or visually-impaired swimmer is permitted to have a "tapper", which is a pole with a soft-tipped end. The swimmer is tapped with the "tapper" as notification of turns and the finish. Sound devices shall not be used. It is the swimmer's responsibility to provide the tapper(s) and operator(s), who shall be positioned within the confines of the swimmer's lane at the ends of the pool.
- .3 **Relay Take-Offs.** A physical touch may be required to signal the relay swimmer when his/her teammate has touched the wall. The specific method may be tailored to the swimmer's preference so long as it does not aid the swimmer's take-off or interfere with the timing.

105.3. DEAF AND HARD OF HEARING

- .1 Deaf and hard of hearing swimmers require a visual starting signal, i.e., a strobe light and/or Starter's arm signals. The Referee may reassign lanes within the swimmer's heat, i.e., exchanging one lane for another, so that the strobe light or Starter's arm signal can more readily be seen by the deaf or hard of hearing swimmer. Standard Starter's arm signals are shown in Figure 1. A false start rope is required in the event of a recall.
- .2 **Strobe light location.** The Starter shall advise the swimmers about the location of the strobe light and the light shall be located where the swimmers can clearly see it for the start. For backstroke starts, the light should be positioned so that the swimmers don't have to turn their heads to look backwards.

105.4. **MENTALLY IMPAIRED.** A deck or in-the-water start is allowable and the swimmer may be permitted to have an assistant on the deck when necessary. No other specific rule modifications are required other than patience and clarity in communicating instructions.

105.5. PHYSICAL DISABILITIES —

- .1 **Start.** Swimmers with physical disabilities:
 - A May take longer to assume their starting position;
 - B May not be able to hold onto the starting grips or gutter for a start;
 - C May need assistance on the deck or from in the water to maintain a starting position;
 - D May need to assume a modified starting position on the blocks, deck, gutter or in the water in order to maintain their balance.
 - E For freestyle, breaststroke and butterfly, a forward start (facing the course) shall be used. The Referee, however, may allow modifications such as the following:
 - (1) The swimmer may start from a sitting position on the block or on the deck;
 - (2) The swimmer may assume a starting position in the water, with or without assistance;

HARFORD SWIM LEAGUE

RULES & REGULATIONS

- (3) If the swimmer cannot use a hand and/or foot to maintain contact with the wall, some other part of the body may be used.
- (4) For breaststroke and butterfly, after the start and after each turn, a swimmer who is unable to push off with the leg(s) may perform one asymmetrical stroke to attain the breast position.
- .2 **Stroke/Kick.** In judging the stroke or kick of a swimmer with a physical disability, the Referee and Stroke & Turn Judge should follow the general rule that: if a part of the body is absent or cannot be used, it is not judged; if it is used during the stroke or kick, it should be judged in accordance with the League Rules and Regulations. Judgments should be made based on the actual rule -- not on the swimmer's technique. For example, the breaststroke swimmer with one arm or leg shorter than the other, may have a non-symmetrical stroke or kick, but as long as the arm or leg action is simultaneous, it would meet that portion of the rule. No flotation devices should be permitted.
- .3 **Turn/Finishes.** Touches shall be judged in the same manner as strokes and kicks, i.e., on the basis of the arm(s) and/or hand(s) that the swimmer can use. In breaststroke and butterfly events, the competitor must reach forward as if attempting a simultaneous two-hand touch. When a swimmer has a different arm length, only the longer arm must touch the wall, but both arms must be stretched forward simultaneously. Swimmers with no arms or with upper limbs too short to stretch above the head may touch the wall with any part of the upper body.
- .4 **Relays.** Relay swimmers who cannot exit the water immediately may be allowed to remain in the lane until all relays have finished so long as they do not interfere with the other swimmers or the timing equipment.
