May 9	6pm	Sac Town	Yes	Gary Short	Jeff Grubbs
End of May	TBD	Rocklin	TBD	TBD	Kym Syndelar

USA Year Round Swimming Meet Officials Clinic:

On Saturday May 25, 2013, Sierra Nevada Swimming will offer a new type of clinic for the required position of Administrative Official. This Official is required at all home meets and this is a great opportunity to get people trained.

Please plan to have your team in attendance. The instructor Bill Rose will be attending a LSC Official Chairs Workshop, in Orlando, Florida, on May 17-19, 2013 and should be bringing back some worthwhile information on what is expected of this Official during meets.

Please [send an email](#) to the league if you plan to attend and will be working as a meet official during our 2013 season.

Northern California Swim League Computer Training

Teresa Folsom is inquiring if there is any interest in a training class for Team Manager & Meet Manager. As in the past, the class is intended for new computer operators or those that need a refresher course because it has been a while. If you are interested, please [send an email](#) to Teresa know by **Monday, April 22nd** and she will schedule a date, time and location in early May. Below provides you with an idea of what will be covered:

Class Overview:

This session will walk a person quickly through all aspects of running the Team Manager and Meet Manager software for the purpose of running a meet. There are things in Team Manager (such as reports, predict meet, etc.) that will not be covered. The idea will be the following:

Team Manager

- Setup age groups like our league runs them
- Create meet - meet criteria and limits
- Create the events under our structure
- Add swimmers (modify, etc)

- Age up issues
- Create entries (individual & relay)
- Export data for submission to Meet Manager

Meet Manager

- Create Meet - meet criteria, rules, parameters, etc
- Import data
- Seeding a meet
- Modifying seeding
- Scratch sessions
- Discuss merits of re-seeding vs manual modifications
- Running a meet
- Scoring a meet
- Reporting on a meet (standard results, record petitions, etc.)
- Exporting of results for re-import to Team Manager
- Team Manager
- Import of Meet Manager results
- Reporting options
